Price of Bird's Eggs.  
Bird's eggs fetch all sorts of prices. A sparrow's egg can be purchased for a few cents, while the egg of the exact great auk is worth at least \$1,000. If not more. Large sums are also offered for the eggs of the passenger pigeon.

Animal Mirrors.  
Observers of nature are frequently struck with the resemblance of insects to leaves, and these are supposed to have great value in the way of protection from enemies. An interesting example of this is a government naturalist, who has a spider found inhabiting the rocks near Cannes, on which it is also fastened. When at rest the spider exhibits almost the same color and color surrounding it.—Exchange.
