CHAPTER IX—Continued. —14— Tt cart be possible? he muttered, bending farther, over. "Such a thing happens toolrardly—" His hear? pounded violently: ex-citement eart he blood roubing to his brain in bilading swirks. He was upped by the gold fever that ce as-the gold fever that ce as-upped by other and less-discorning men for days and years! It was oil, no question about it. An extremely slight quantity, true: so slight a quantity that there was no flim, bat use water, on discornible taske to the water. Gramont brought it to lis mooth and rose, slaking his head. Where did it come from? It had not connection with the gas but he dome there starding Gramont dit on th now. His brain was after with the possibili-ties. At length he sittred into action and farated up the bayso bank, from time to the haiting to search the water evoid still discern the faint ride-evoid.

CHAPTER IX-Continued.

He followed it most provide and He followed it most provide and fund that it erroms form some viry that was loss it in the hard almost as rapidly as it came from the earli-depths. Only accidentally would a man see it—soit ances he were search-ing the water close to the bank, and even then only by the grace of chance. Suddenly Gramont saw that he had lost the sign. He holted. No, not lost, either 1 Just shead, et is not a start of the source of the argument, still so that he hold man see it—soit ances he were search-ing the water close to the bank, and even the sign. He holted. No, not lost, either 1 Just shead, et lost the sign. He holted. No, not lost either 1 Just shead, et is a starth of recis, add a re-cession of the short. Into the could only deter in the errain angles. Office-ing up, he could see a fence at a liftle distance, evidently the boundary fence of the Ledanols-tand; the bushes and trees thinked out here, and on shead was cleared ground. He saw, turnugh the bushes, slippass of buildings. Viash to lose this discover, after all? Was he to find that the seepare came from ground belonging to somy one else? No—he stepped back in itso hadray tricked of water, a stributary so insignificat of water, a stributary is insignificat that it was lowishib-ten feet distant 1, and on the sargace a finit ricked of water, a stributary is insignificat of water, a stributary is insignificat that twas lowishib-ten feet distant 1, and on the sargace a finit ricked of water, and ceased abruptly, in a hubbling spring, that welled from a patch of low tree-closed land. Gramont feet his feet sisking in creas, and swith lifered water of the thory round, it could be discerted only with great difficult. A very thin seepare, concluded fra-mont; a thin oil, of course. So faint a lift thing, to meen so much i it can built a tree for the find, this frage, wathing, the serve thin-ling thoughts as he gazed down by it. There of the thory round, it could be discerted onl

ues oven nere, waiting for some one—" Sundenly he started violently. An abrupt crasshing of feet among the bushes, an outbreak of voices, had scounded not far away-just tils, other side of the boundary fence. He was wakened from his dreams, and Atarted to rise. Then he relaxed his muscles and ing quiet, astonishment's selfing him, for he heard his own name men-tigned in a voice that was straige to him.

By H. BEDFORD-JONES Copyright by Soubleday, Page & Co. alarm. "Lookhere, sherif, it wasn't ine done it! It was framont--" There came/silence. Not a souud broke the stillness of the late after-noon.

QUESTION: How can I serve a good mince pie at small cost?

ANSWER :

The very lowest cost, the very least amount of work and the very best mince pies are all possible with

cookies, etc. You may be offered other brands that you know less well than Sun-Maids, but the kind you want is the kind you know is good. Insist, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.
