MANUFACTURING ENGINEER
LAYOUT INSPECTOR
MAINTENANCE MECHANIC
Consolidated Metallurgical Industries, Inc., a manufacturer of high speed steel powdered metal parts, is seeking to supplement its Farmington Hills staff with several key individuals.

Manufacturing Engineer
Responsibilities of the position include routing, plant layout, equipment procurement, installation and modification, supervision of outside service vendors, design and implementation of a preventive maintenance program and safety. Applicants must have a minimum of five years of solid related experience and a strong mechanical aptitude. Two years of college or technical training preferred.

Layout Inspector
Functions of the position include developing layout techniques, inspecting parts for conformance to drawing requirements, maintaining gauges, and the implementation of better inspection techniques.
The ideal candidate will be familiar with the operation and maintenance of various types of inspection equipment and techniques (height gauges, vernier, calipers, micrometer, comparator). A minimum of two years experience in a QC function is required and technical training in math and statistics is preferred. Previous experience with layout of castings, forgings, etc. a real plus.

Maintenance Mechanic
This individual is responsible for maintaining equipment (mechanical and isostatic presses and vacuum furnaces) at full efficiency. In addition, the Maintenance Mechanic serves as Assistant Foreman when necessary. Formal training and experience in hydraulics and electronics are essential for the position.
For prompt, confidential consideration for any of these openings, please send resume and salary requirement or call for an application.
