A free Contour Analysis examina-tion is being offered for people wind-acute or chronic pain by the chirop-ractic office listed below. People who suffer with backache, burstits, arthritis, neuralgia, nerve pain, neck-pain, muscle pain, bone pain, etc..are invited to receive this free examination.

pain, muscle pain, bone pain, etc..are invited to receive this free aximitation.

Contour Analysis enables taking a three-dimensional picture (called Moire photography) of the topography of the surface of the spine to detect spinal stress deviations. This analysis will be correlated with leg defliciency, patient symptomatology, and levels of spinal tenderness. An analysis of this type can reveal such things as normal and abnormal stress patterns, spinal curvature, muscle spasme, muscle imbalance, spinal-distortion, and scollosis. This analysis, including consultation with the doctor is being offered to the public at no charge for the next 30 days. Anyone wishing to receive this free examination may telephone for information or an appointment.
