

Brotherton tax cut proposal defeated

Third suspect arraigned

The third suspect in a plot to kidnap a Farmington Hills businessman and his family was arraigned in 47th District Court in Farmington Saturday.

Insubing Kim, 30, extradited from Denver, stood mute before Judge Michael J. Hand. He is being held on \$100,000 bond in the Oakland County jail.

Kim is charged with three counts of possession of a firearm during the commission of a felony, conspiracy to kidnap, kidnaping, and assault with intent to kidnap.

Kim was nabbed by authorities at the Denver airport June 27 where he was waiting for a flight connection to Salt Lake City. He left Detroit earlier that day on a Frontier Airlines flight, police said.

The other two suspects, Gary Lee Kelley, 22, and Rick Scoggin, 19, both of Salt Lake City, were apprehended by police on charges of kidnaping Byung Park, a shoe store owner seized outside Park, at his home in the 11 Mile/Middlebelt area June 27.

A proposal by State Rep. Sandy Brotherton, R-Farmington, to eliminate the 4 percent sales tax on utility bills has been defeated on the House floor.

Residents would have saved, according to Brotherton, on an average, \$144 in utility sales tax from 1981 through 1984.

The proposal was offered in the form of an amendment to the Governor's coalition property tax reform proposal.

"I offered the amendment because I believe that people want a tax cut, and this plan would have provided them with a cut that was up front and easy to see," Brotherton said.

"In other tax reform proposals being offered, it is difficult for many persons to compute the effect they would have because the plans are complicated."

His plan would have meant a \$110 million tax revenue cut in 1981, according to Brotherton, forcing the state to "carry its share of the belt-tightening during difficult economic times."

Brotherton noted that individuals and business are being forced to cut

back, but government, he says, has increased its payroll.

"Since I've been a member of the legislature, state employee rolls have increased from about 57,000 to 71,000 workers," he said.

"THE STATE TALKS about how it's holding the line and tightening its belt, but in my opinion they could do a lot more," he said.

Under Brotherton's plan, persons whose average gas, electric and phone bills total \$80 a month would have realized a savings of approximately \$36 a year.

"I realize that we're not talking about a lot of money when we talk about \$3 a month, but this amendment would especially have helped those persons living on fixed incomes," he said.

Under the Governor's tax reform plan, the sales tax utility bills would remain at 4 percent for 1981, drop to 3 percent in 1982, 2 percent in 1983 and 1 percent in 1984.

It would be eliminated totally by 1985.
