And we're doing even more to make the most of our gas and our gas dollars. Things like:

gas dotas. I migs use: <u>ID priving at a moder-ate speed and a steady pace.</u> 35 to 45 miles per hour is the most efficient driving speed (no more than 55 on the highway). Select routes that include long smooth stretches of road so you can drive at a steady pace.

<u>I Not idling the motor</u> for more than <u>30 seconds</u>. Anytime you park and wait for more than 30 seconds, turn off the ignition. Restarting takes less gas than idling.

Restarting takes less gas than hum <u>Leaving the car</u> <u>home once in a while.</u> When you can, share arideor use public trans-portation. Or try walking, biking... or even skating! And many errands can be handled effectively by mail

You may think that anything that sounds this simple can't save you very much, but following steps like these can really help reduce your gasoline bills. Sokeep up the good work!
