KEEP IT UP, AMERICA.

We're doing it. We're driving less, planning trips more wisely, keeping our cars in tune—we're taking the simple but necessary steps to save gasoline... and money.

Things like:
Driving at a moderate speed and a steady pace. 35 to 45 miles per hour is the most efficient driving speed (no more than 55 on the highway). Paying closer attention to the traffic flow can help you avoid unnecessary acceleration or sudden braking.

Following easy steps like these really can help reduce your gasoline bills. So keep up the good work!

LITTLE BY LITTLE, IT ALL ADDS UP.
