BESSENGER'S designs 2355 Woodward Avenue (South of 10 Mile) Ferndale, Michigan 48222

Art Deco charms its way into the '80s

Art Deco, which flourished as a pace setter style in the '20s, was used for a West Bloomfield home by interior designer Sheila Landau. She worked in shades of apricot, peach and gray to create the soft, rounded luxurious look that typified the style. The rolled arm sofa with several pillows is done in an Art Deco feature design. The sofa is set off by two curved chairs with white laquer ball-shaped feet. The feather pattern is apricot and gray tones, which are repeated in the full drapes and contemporary

painting. The custom pull-up chair is one in white laquer in a twisted rope design. These pieces of furniture are set off by a linen scroll table, which adds to the light flowing contours of all the furniture. Not shown is a custom gray laquer cantilever circle table. Carpet and walls are pale apricot. White china and pottery accessories add sparkle to the gentle approach from another era. (Staff photo by Stephen Cantrell)

Here's the unhandyman's dream-come-true

SPACE BUILDER®

VENTILATED SHELVING

SAVE 20%

Now you can solve all your shelf space problems in minutes with Space Builder ventilated shelving. Tough vinyl is bonded on heavy-duty steel-rod shelving, so it's engineered to last a lifetime. Yet you can install it yourself in minutes. The unique Space Builder design lets air flow right through, fighting mildew and stale odors in closed closets and storage areas. In utility and laundry rooms, this unique ventilation feature keeps cleaning supplies high and dry. You can see right through it, too, so you know what's on each shelf in your garage without climbing and searching. And in your pantry, there's no place for bugs to hide, or dust to collect. It's even a great shoe rack. Just install it upside down. Space Builder ventilated shelving will never warp or splinter. No more painting. No more dusting. No more shelf paper to cut and fit. Space Builder ventilated shelving comes in 2-, 3- and 4-foot lengths. They can be combined, using appropriate hardware, for longer lengths, and they can be cut easily with a hacksaw for odd lengths. Install it yourself this weekend and see that it really is a dream-come-true.
