

Carpet resists stains

A new carpet that looks and feels like many of the fine carpets that have been around for a long time has some special characteristics.

Stain and soil protection is built-in — made part of the fiber itself through chemical modification.

Called Anso IV and made by Allied Chemical Fibers & Plastics Co., it has a quality that resists liquids

such as coffee penetrating the pile even after long wear.

Dave Levy at Rite Carpet predicts that this new soil-rejecting carpet may soon revolutionize the industry. In addition to built-in stain and dirt protection, the carpet, which comes in many colors and designs, is treated to resist static shock control.

GLASSFYRE...

A Picture Window For Your Fireplace

This dramatic firescreen combines beauty with complete fire, draft and smoke protection. When dampers are properly adjusted, it is safe to close the French doors...thus saving room heat.

Glassfyre is available in three frame styles with a choice of polished brass or in a variety of other beautiful metal finishes to complement your decorating plan. All frame finishes are protected with a clear baked enamel and never need polishing. Easily installed with lintel clamps.

Glassfyre screens are available for standard, corner, arch-top and three-sided fireplaces.

That's the spirit

Jack and Nancy Hermes will open their new Esprit Decor shop in Romeo this month. For many years, the firm has provided a variety of special services to area designers: Old World painting, glazing, stripping, stenciling, hand detailing, combing and marbelizing. The firm also does furniture refinishing and hangs some of the beautiful contemporary handmade and fabric wall coverings. It also maintains the 100-room Tudor mansion in Rochester, Meadow Brook Hall. Esprit Decor, taken from the French phrase, in this instance, means the spirit of decorating. Hours are 10 a.m. to 6 p.m. Monday-Thursday, Saturday. Until 9 p.m. Friday, 256 S. Main, Romeo.
