At Manufacturers Bank, get more than just nterest on my checking. get interest in me.

Introducing ManuWay Interest-Checking. Effective Jan. 2.

Of course, I'm interested in a new way to get interest. And Manufacturers Bank came up with a good way. I collect 54% on my checking, compounded continuously. And its paid directly finto my checking account each month. That makes it doubly attractive. I can sign up now, so I'll begin earning interest January 2.

But as much as I like my money to work for me, I also like my bank to put its interest in another place. Me I like walking in the door of my Manufacturers Bank and hear-

ing the teller say "hello." And when I want a special service or financial advice, I know I can count on

my bank. To me, a banking relationship is as important as the professional relationship I have with my doctor or lawyer. And I have it with Manufacturers.

I know I'll get any new service from my bank that can help me... like ManuWay Interest-Checking. And I know it will be delivered with interest in me. That's Manufacturers way of banking.

MANUFACTURERS BANK

That's my bank.
