# I get more than just interest on my checking. I get interest in me.

# Introducing ManuWay Interest-Checking. Effective Jan. 2.

Of course, I'm interested in a new way to get interest. And Manufacturers Bank came up with a good way. I collect 54% on my checking, compounded continuously. And its paid directly into my checking account each month. That makes it

doubly attractive. I can sign up now, so I'll begin earning

But as much as I like my money to work for me. I also like my bank to put its interest in another place. Me. I like walking in the door of my Manufacturers Bank and hear-ing the teller con "The Party of the Party of the ing the teller say "hello." And when I want a special service or financial advice. I know I

my bank. To me, a banking relationship is as important as the professional relationship I have with my doctor or lawyer. And I have it with Manufacturers.

I know I'll get any new service from my bank that can help me ... like ManuWay Interest-Checking. And I know it will be delivered with interest in me. That's Manufacturers way of banking.

■ Total system test and family fire drill button.
■ Audible 30 day warning beep indicating low

battery.

Loud 85db pulsating warning horn.

Why battery operated unit . . .

Easily installed — needs no special wiring.

Will sound alarm even if household power

That's my bank.

\*Effective annual yield of 5.467%. To avoid service charges a \$1,500 minimum or \$2,000 average balance must be maintained.
