THE MOST SIGNIFICANT CAR

INTRODUCING THE 1981 RABBIT
"IMPROVED"
Volkswagen Rabbit
In 1981, you'll be seeing a different kind of Rabbit.
Outside there's a new grille. Inside there's a plusher interior.
And under the hood there's a bigger engine, even though the
Rabbit uses less gas. EPA estimated 29mpg, 42mpg highway est.
Make (Use "estimated mpg" for comparison. Mpg varies with speed,
trip length, weather. Actual highway mpg will probably be less.)
But as much as the 1981 Rabbit has changed, there's one thing
that's still the same. Its first name is still Volkswagen.
