Very shrew-d

The short-tailed shrew, found in much of the United States, is the only North American mammal definitely known to have a poisonous bite. The poison is used to subdue prey.

Hen holes

An average hen's egg contains about 10,000 tiny openings. Through them, a developing chick takes in oxygen and releases carbon dioxide.

Hills man shot during holdup

A Farmington Hills man remains in serious condition at Mt. Carmel Hospital in Detroit this week after he was shot in the stomach during a robbery Saturday night.

James Falkner of Westcott Crescent Circle was driving a delivery truck

when he was attacked near Lahser and Seven Mile in northwest Detroit.

Detroit Police Sgt. James Johnston refused to comment on the incident. He said police are investigating the incident.

Basketball program set

A program developed by members of the National Basketball Players Association and YMCA will be offered at the Farmington YMCA for children ages 7-11.

Players will wear team uniforms, have a National YBA registration card and receive coaching and basketball skills at all levels of competition.

NBA players will participate in training workshops, clinics, films and other events reflecting the goals of the program, according to Paul Silas of the Boston Celtics, president of the players group.

Team and individual sign-ups will be

conducted in November and December with practice sessions to begin immediately. League competition will begin in late December and early January with play to conclude at the end of January.

Sponsors for both teams and individual players are needed by the YMCA.

Team registration is \$14 for members and \$16 for non-members. The fee pays for a team kit consisting of uniform, manual and national membership card. Funds from community sponsors will be used to defray the cost of team kits.

Well done

The United States draws about half its drinking water from underground. Each year nearly a million new wells puncture the landscape.
