INTRODUCING THE NEW COSMIC VIP COMPUTER FUN FOR THE WHOLE FAMILY BY RCA

Completely assembled

Uses CDP 1802 single chip microprocessor. Four 4K bit static RAM circuits provide 2K of memory. Input through an integral 16-key hexadecimal keypad. Output through a CDP1861 video interface circuit which generates graphic displays for an external video monitor (not supplied). Sockets are provided for 2K additional RAM. Base price \$199.00. Accessories start from \$12.00

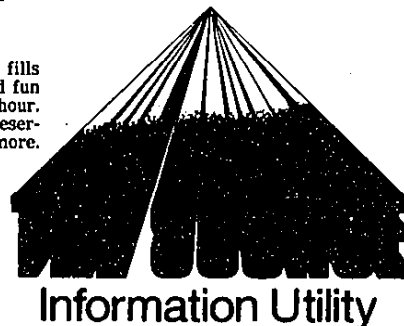

RCA felt that a hobbyist computer should be low-cost, easy to use, versatile and something the whole family - from the serious hobbyist to the younger school-age set - could use and enjoy from the start. The COSMIC VIP is that kind of computer.
