Olds shows technology

A futuristic display and the newest in engineering technology will greet visitors to the Oldsmobile area at the auto show.

Two new-to-the-market cars, the Omega ES 2500 and special designer appearance package on a 1981 Cutlass Supreme, will rotate on turntables. A third car, a maple red Toronado with red leather interior, also will be featured on a turntable.

A technical area, with displays of engineering innovations, will allow auto

show goers a closeup look at what is under the hood of 1981 Oldsmobiles.

Featured there will be a working display of Computer Command Control, standard on every 1981 gasoline-powered Oldsmobile. This new computerized system allows improved fuel economy while meeting the stricter 1981 emission standards.

Also displayed will be two diesel engine cutaways with moving parts. Diesel-power is optional on 19 of Olds-
