FREE CONTOUR ANALYSIS EXAMINATION FOR VICTIMS OF CHRONIC OR ACUTE PAIN

A free Contour Analysis examination is being offered for people with acute or chronic pain by the chiropractic office listed below. People who suffer with backache, bursitis, arthritis, neuralgia, nerve pain, neck pain, muscle pain, bone pain, etc., are invited to receive this free examination.

Contour Analysis enables taking a three-dimensional picture (called Moire photography) of the topography of the surface of the spine to detect spinal stress deviations. This analysis will be correlated with leg deficiency, patient symptomatology, and levels of spinal tenderness. An analysis of this type can reveal such things as normal and abnormal stress patterns, spinal curvature, muscle spasms, muscle imbalance, spinal distortion, and scoliosis. This analysis, including consultation with the doctor is being offered to the public at no charge for the next 30 days. Anyone wishing to receive this free examination may telephone for information or an appointment.

Caring..

There's something special about the kind of assistance families receive from the staff at McCabe's. It's called "caring"—the reflection of a sincere desire on our part to help during some of life's most trying moments.

The 87 years that we've been serving Detroit-area families have taught us much about what is of lasting value. We've learned that of all human relationships, perhaps the most precious is the act of one person caring for another.

Whenever a problem arises where you believe McCabe's can be of help, please feel free to call us. Anytime. That's why we're here... because we care.
