HAIRDRESSERS

Somerset Mall - 643-8740

Our spring invention by Jack Mulqueen is an irresistible many-season dress for a multitude of reasons. For the blissful watercolor look of its blue floral stripe. For its willowy, deeply smocked long waist. For its relaxed long sleeves. And for its fabric—“Sissalicious” of polyester—with just about everything silk has and easy care to boot. For 4 to 12 sizes, 76.00. Miss Bonwit Dresses, Second Floor

French sportswear house Tiktiner prides itself on creating wardrobe pieces that are not only fashionable but durable, and they work well together with pieces from other seasons and other years.

“Each year,” said Dina Veterbo, owner and designer at the French house, “fabrications and colors change. But, they still work with other groups a woman has in her wardrobe.”

Mrs. Veterbo said she and her two daughters, Vivianne and Daisy, own their own factory in Nice, where all of the manufacturing of the line is done.

Noted for the unusual mix of her patterns, such as stripes and dots, Tiktiner and Mrs. Veterbo are also noted for using practical fabrics.

Linens are made of Fibranne, a rayon mix linen that appears to be all linen but,

in fact, does not wrinkle.

Most of the Tiktiner ensembles are accented with cummerbunds, either in matching or contrasting colors.
