Bus Line Calls It Quits

Northville Coach Lines ceased operation with the close of the schedule Friday, bring-ing to an end the only bus service based in northwest

service based in northwest Wayne County. The company's single commuter run, along Seven Mile from Northville to Grand River in northwest Detoit, will be hardest felt. The remainder of the company service, with its 18-bus fleet, was in charter business. A 38-year-old business begun in 1932 will thus fade from the scene.

AUGUST SCHILLER, gen-AUGUST SCHILLER, general manager and one of three company stockholders. told Observer Newspapers Thursday: "We've been losing money for the last five years. We just can't continue."

The decision to fold was made Tuesday by Schiller and fellow stockholders Max Wolf and autorney. Samed Leiber Samed Leibe

fellow stockholders Max Wolf and attorney Samuel Leib. Schiller said negotiations are underway with another company to sell the company assets. He declined to reveal which company. Seven full-time employes and several part-time workers will be affected. Schiller said he, too, is going to "look for a job."

job."

A note of disappointment sounded as he explained "No-body wants us. If they would have subsidized us, we could have continued. We've tried for years to interest the state

need."
William King, head of the
Public Service Commission
Transportation division,
through whom notice of the
cessation has to be processed,

ANOTHER SOURCE of sub-sidy Schiller has been looking to for several months has been the Southeastern Michigan Transportation Authority (SEMTA). In turn, SEMTA has been studying possible acquisi-tion of Schiller's company and

SEMTA studies have shown that fare returns alone would not support such a system and that government subsidy would be necessary.

William C. Ostenson, gency of Northville Coach SEMTA executive secretary, said SEMTA would be unable (1) Seek a state or local subto either subsidize them or buy them out in anything less than six months or a year. He said there are three pos-sibilities to meet the emer-

inorthville Coach Lines closing: (1) Seek a state or local sub-sidy; (2) try to get Detroit's DSR to extend its service westward along Seven Mile; or (3) do nothing and let the serv-ice drop.

A Village Plant Turns 50

A coloriul historical mile-stone was reached last week when Ford Monto Ca.'s North-wile Valve Plant celebrated its 50th anniversary. The plant has produced more than a billion valves for Ford engines since it began operat-ing March 20. 1963. It also has the distinction of being the last of the renovned "village industries"—estab-lished by the late Henry Ford-which is still in operation.

which is still in operation.

THE PLANT supplies about 75% of Ford's requirements for intake and exhaust valves for engines. It currently employs 233 persons and had a payroll' exceeding \$3.60,000 in 1969.

The plant's history dates from 1919 when the late Henry Ford purchased a three-story brick plant on the site at 255 E. Main Street. The structure was soon converted to a valve

Main Street. The structure was soon converted to a valve plant as one of Ford's "willage industries."

Dotted throughout southeastern Michigan in the 1920s and 1930s, these plants were to be noted for high standards of craftsmanship and for friendly, bometown atmosphere. One of Ford's aims was tey provide jobs for persons in rural areas

and improve the economy of small towns.

During the plant's first 16 years, 181 million valves were produced in the original building. In 1398 the present plant building was completed, along the banks of a branch of the Rouge River. It stands on the exact site of Northville Sirst structure-a sawmill established in 1825.

IN THE EARLY days of the new plant, a Fitz overshow the plant produced only exhaust valves. Intake valve manufacturing began during the early 1909 and the plant was expanded in water wheel powered by water from a dam in the river was

Plant, has responsibility for the Northville operations. He lives in Northville. Earl Weigt is the plant superintendent.

The doors to the Durnit Bowling Hall of Fams were opened Saturday afternoon to admit four new members. In fitting exercemones at the Detroit Historical Museum Tony Lindenam, former capatain of the Stroh team. Maxine Cruchon, vetern all-star and organizer of the Bowlerettes League, Bill Williams, former president of the city, state and national bowling proprietors associations were admitted and a posthumous award was made for the late Therman Gibson.

The addition of these four brought to 58 the number of persons in the Hall of Fame that was inaugurated in 1957.

TED BAKATSELOS, the strong man from Westland, finished second to Dick Preston in the monthly tournament of the Michigan Major Bowling Association last weekend in Grand Rapids.

To take first place Preston

To take first place Preston averaged 221 for the final 12 games for a 3161 count. Bakatselos posted 2970.

ff ling Mahi . observing sports

It won't be too long now when a blessed event is scheduled in the Maskin contingent.

No. 1 son Richard will become a daddy for the first time and that will make Richard's pop a grand-

add for the first time.

All of which, of course, is important only to those within the immediate family, except that a little – or maybe it was a gigantic – incident in which we played a part the other morning got us wonder-

"Is there a chance this baby will become a mil-

"Is there a chance this baby will become a million dollar young man or lady?"
Certainly, there's no chance that the child will know instant wealth. Or anything close to it...if we know the financial status of father-to-be, still finishing college, and grandpa.
But, what about the future?
The future for a 1948 baby Robert Lanier, is now and the seven-pound bouncing baby the Laniers, of Buffalo, N.Y., presented to the world that year...well, he's a million today and just past his 21st birthday.
Bob received the biggest contract in the history of professional sports when he signed with the Pistons in a Buffalo hospital room last Tuesday morning.

Bob couldn't believe what was happening. I dare say many others couldn't, including his very modest mother and his not so modest (from a talking standard).

MOM STOOD in the background. She was reluctant to pose for any pictures, to converse with the radio and TV people who were there representing the local and national networks.

She stood and no doubt thought about that baby boy of, her's...and he's still her baby for whom his success in sports has made him nationally famed and so wealthy.

success in sports nas made min. A success in sports nas made min.

Life for mom, and for dad Lanier never has been too easy. Bob is in the trucking business. Mom has worked with the Buffalo welfare department as a social agent, to help keep things bubbling in the handled.

There was son Bob to bring up and his sister, who shortly will finish her training to become a

murse. Mom was sensitive when kiddingly we commented: "I guess Bob never will need to see a wel-

You kind of gathered from her remarks that she was concerned...concerned that riches and success might put too much pressure on Bob's big shoulders.

"They'll be expecting too much from him on the Pistons and in the National Basketball Association considering what they're going to pay him (over a million dollars for the next five years).

"Maybe it would be better if he started in less conspicuous fashiom...but Bob will be okay...he'll take care of himself...he'll do okay...."

Dad was more positive. He's been close to Bob in the basketball wars. He often sat on the bench when St. Bonaventure played.

State Senator George W. Kuhn (R-West Bloomfield) vesterday introduced a resolution; co-sponsored by 18 senators, calling for a full scale Senate investigation of the recently attempted dynamite bombings of a Detroit police station and the headquarters of the Detroit Police Officers Association.

THERE'S ANOTHER side to the Bob Lanier story. It's the story of how a boy through personal effort and desire has moved to the place he enjoyed in the recent college basketball season.

You see when Bob first went to high school in Buffalo, he wasn't considered worthy of playing on the varsity or even the reserve basketball team.

Bob might have been discouraged. But he wasn't.

wasn't.

He'd spend his nights at the Boys Club near his home practicing and working at basketball. He'd talk to coaches and other players.

Bob Lanier had some proving to do....to the high school that he could PLAY basketball for the varsity. Well, when he became an 11th grader. Bob went out for the school team. This time the coach couldn't believe his eyes.

out for the school team. This time the coach couldn't believe his eyes.

The big kid of some 6-8 in height knew something about the game of basketball. In short order, Bob became the starfing center for his high school.

When the season was over, he was named on the All City and the All Western New York State stars. It was the same in his senior season.

Around here, around the country, we all know the rest of the Bob Lanier story-at least until this hour.

PAUL MOORE, of Warren, who does quite a bit of bowling in Observerland, tied for the regular all-events lead in the ABC tournament last weekend at Knoxville when he put together a nine-game series of 1947. Each of his nine games was well above double century figures. figures.

HOWIE MARSH and Solly Abel shared honors in the Sen-ior House League at Oak Park Lanes. Howie posted a 254 single and Solly had high series with 638.

SCORING TOOK a dip in the Wonderland Classic where 700 series had become the order of the day.

This week Billy Walker needed only a 673 to take top honors. Close behind him came

Buzz Hansen with 670.
Dick Beattie, average leader with a 217, dropped to a 598 series.

JIM MACOMBER paced another high scoring session in the Westland Classic when he laced games of 247, 258 and 234 for 749.

Three others — Chuck Ahone. Roger Helle and Harry
Hill — were tied for runner-up
honors with 70!.
Joe Kityanek couldn't stand
