Death Toll Mounts In Iran Quake

KAKH, Iran -- Six thousand of Kakh's 7,000 citizens were killed or missing in weekend earthquakes in Iran that demolished 31 towns and villages.

At the last official count, rescue workers reported 8,222 persons killed, 2,652 injured and about 100,000 homeless. The final death toll may remain hidden forever, beneath the ruins.

Prime Minister Amir Abbas Hoveida, who flew to the disaster area with five cabinet ministers, struggled to Kakh and said: "This is the most ghastly scene I have ever looked at."

Air crews reported that vast areas showed no signs of life.

LANSING -- Michigan had one of the highest traffic tolls in the nation for the three-day Labor Day weekend with 42 deaths reported last Monday.

During the Labor Day period last year, 48 persons were killed in Michigan.

Nationally, the death rate was running slightly ahead of the record Labor Day toll of 636 in 1966, according to the National Safety Council.

SAIGON -- Waves of U.S. Air Force B52 jets dropped 350,000 pounds of bombs into the jungles around Saigon Monday.

The blitz was conducted amid apparently unfounded rumors that the communists might celebrate North Vietnam's National Day (Monday) by attacking the capital.

News Round Up

NEW YORK -- Under heavy guard, Hubert H. Humphrey opened his presidential campaign by leading 100,000 marchers in a Labor Day parade.

Ignoring heckling by anti-war demonstrators and Nixon backers, Humphrey predicted: "I'm going to walk up this avenue and right into the White House."

PRAGUE -- Soviet troops may begin full withdrawal from Czechoslovakia within a few days, Czech Deputy Premier Frantisek Hamouz has predicted.

Hamouz went on nationwide radio to broadcast an appeal for law and order only hours after Alexander Dubcek, the Czech Communist leader, and his liberal supporters had maneuvered to control a new, expanded 21-member Presidium.

PARIS -- North Vietnam's two top envoys at the Paris peace talks have ruled out any chances of an early breakthrough toward a cease-fire.

Le Duc Tho and Xuan Thuy said they saw no essential differences in the Vietnam policies adopted by the Democratic and Republican presidential contenders.

WASHINGTON -- The Soviet Union has upset the longstanding military balance in Central Europe by massing its troops against Czechoslovakia and possibly Romania, the United States State Department has warned.

An Administration statement released by the State Department disclosed that the North Atlantic Treaty allies are reviewing counter-actions that might be taken to insure U.S. and Allied security.

The State Department announced at the same time that Secretary of State Dean Rusk had conferred with Soviet Ambassador Anatoly F. Dobrynin for 50 minutes at the same time that President Johnson was issuing a public warning to the Russians against any further military moves in Eastern Europe.

GARY -- Teams of rescue workers sifting through the rubble of three buildings in downtown Gary recovered six more bodies, increasing the death toll from an early morning fire to 13, police have reported.

Cause of the blaze which destroyed three combined businesses and apartment buildings was not known, investigators said.

CHICAGO -- Rep. Roman C. Pucinski (D-IL) has called for a Federal Grand Jury investigation of "those who crossed state lines to instigate this week's rioting in Chicago."

In a letter to Atty. Gen. Ramsey Clark, the Chicago congressman said the violence gives Federal authorities "an excellent opportunity to prosecute the first case under a new law which prohibits crossing a state line to incite a riot."

President Johnson signed this law April 11.

DETROIT -- Six Detroit-area school districts with more than 24,000 pupils appear certain to postpone school openings for a day or more as negotiators for teachers' unions and district administrators bargained late into the Labor Day evening.

Detroit schools, scheduled for a Wednesday opening, are not in jeopardy, Detroit teachers are entering the second year of a two-year contract signed last year after a strike had idled 300,000 pupils.

School districts considered certain to postpone openings include Inkster, Ecorse, Grosse Pointe, Dearborn, Northville, and Westland.

Another 12 districts with 92,000 pupils are in danger of postponements.
