

Q-Why did you agree/disagree with the six-month, 1-percent increase in the state personal income tax voted in last May?

I would never have voted for the six-month increase in the state income tax and would vote to repeal it as soon as possible.

Q-Our state and federal road system has reached maturity in the last few years and is rapidly deteriorating. What programs should be implemented to restore the roads?

We should share in the federal gasoline tax money and the state sales tax on gasoline should adequately take care of the roads and highways.

Q-SEMTA has experienced a 20-percent cut in its operating budget and expects more cuts as federal aid shrivels. How should the public transit operating funds question be addressed?

I do not pretend to be an expert in this area and would have to stand up before making official decisions, however, I do feel that it would be a good idea for the public transportation system to get together so there would not be a duplication of service for maximum efficiency.

Q-Do you support a) the "human life amendment" prohibiting abortion? b) Medicaid funding of abortions?

Yes.

Q-Utility rates have been adjusted automatically for fuel price changes. How do you feel about requiring state Public Service Commission approval of such rate changes?

I believe the state should curb the right of utility companies to increase

fees automatically and would urge the utility companies to keep costs in check. I would like to see the Utilities Commission elected by the people and answerable to the people.

Q-The State Troopers Association is seeking a constitutional amendment to guarantee job levels and freeze ranks. How would you vote and why?

I disagree. I believe the Civil Service Commission and the respective supervisors and department managers should have the power to make such decisions. However, I do believe that disputes between the association and the state should be settled by binding arbitration.

That was proved in Detroit in the last election. It was shown there was a need, and the voters approved a tax increase.

Q-Our state and federal road system has reached maturity in the last few years and rapidly is deteriorating. What programs should be implemented to restore the roads?

This is a federal problem that should be answered by candidates to federal office.

Q-SEMTA has experienced a 20-percent cut in its operating budget and expects more cuts as federal aid shrivels. How should the public transit operating funds question be addressed?

Increase fares.

Q-Do you support a) the "human life amendment" prohibiting abortion? b) Medicaid funding of abortions?

Without seeing the specific legislation, I cannot answer the question.

Q-Utility rates have been adjusted automatically for fuel price changes. How do you feel about requiring state Public Service Commission approval of such rate changes?

Public utilities should be deregulated. In the case of the deregulation of airlines and trucking industries, rates came down, to the benefit of the consumer.

Q-The State Troopers Association is seeking a constitutional amendment to guarantee job levels and freeze ranks. How would you vote, and why?

No. No one is entitled to a guaranteed job or level of rank or position as it breeds incompetence and destroys competition.

Q-Our state and federal road system has reached maturity in the last few years and rapidly is deteriorating. What programs should be implemented to restore the roads?

Shift funds from other areas of the current budget.

Q-SEMTA has experienced a 20-percent cut in its operating budget and expects more cuts as federal aid shrivels. How should the public transit operating funds question be addressed?

By public vote so the people can decide.

Q-Do you support a) the "human life amendment" prohibiting abortion? b) Medicaid funding of abortions?

A) no B) no

Q-Utility rates have been adjusted

automatically for fuel price changes. How do you feel about requiring state Public Service Commission approval of such rate changes?

Such rate changes should not be permitted unless first approved.

Q-The State Troopers Association is seeking a constitutional amendment to guarantee job levels and freeze ranks. How would you vote, and why?

I would not tamper with the constitution to address this issue, although it does have merit.

On a statewide basis.

Q-Do you support a) the "human life amendment" prohibiting abortion? b) Medicaid funding of abortions?

a) no b) yes.

Q-Utility rates have been adjusted automatically for fuel price changes. How do you feel about requiring state Public Service Commission approval of such rate changes?

I want the Public Service Commission to be elected and to approve all rate changes.

Q-The State Troopers Association is seeking a constitutional amendment to guarantee job levels and freeze ranks. How would you vote, and why?

No — dangerous precedent.
