believe in equality of opportunity and that sex as well as race, religion, etc. should not reduce people's opportunities.

Q-Why did you agree/disagree with the six-month, 1-percent increase in the state personal income tax voted in last May?

The money raised by the six-month tax apparently was needed. I think the income tax method was the fairest way to do it.

Q-Our state and federal road system has reached maturity in the last few years and rapidly is deteriorating. What programs should be implemented to restore the roads?

The use taxes on vehicles should be raised to the point where they, with the gasoline taxes, can pay for the wear and tear on the roads. The money raised should be spent on a scheduled, regular repair program.

Q-SEMTA has experienced a 20-percent cut in its operating budget and expects more cuts as federal aid shrivels. How should the public-transit operating funds question be addressed?

Public transit should go where the most people are going. Other service will have to be cut way back until money is plentiful again. Farees will have to make up the dollar shortfall.

Q-Do you support a) the "human life amendment" prohibiting abortion? b) Medicaid funding of abortions?

a) No. I think that family planning, at least through the fetus' first trimester, is more important than the right to life.

b) Medicaid funding of abortions is crucial. It is the size of the family of those on welfare that the citizens of this state have the greatest interest in controlling. I believe it is totally counterproductive to want to eliminate Medicaid-paid abortions.

Q-Utility rates have been adjusted automatically for fuel price changes. How do you feel about requiring state Public Service Commission approval of such rate changes?

I don't think the automatic price increases are the problem. It's just the net cost without a profit margin which gets passed through. Where there should be outside scrutiny is in the decision process where the suppliers are selected. That seems to be one of the main causes of higher prices.

Q-The Single Business Tax has been under attack from all sides. What, if anything, should be done to change it?

I don't have enough information on the proposed alternatives to make a judgment at this time.

Q-How will you vote if an equal rights amendment comes before the Congress and Legislature again? Why? How do you feel about the enactment of an equal rights amendment to the state constitution?

I favor the equal rights amendment.

Q-Why did you agree/disagree with the six-month, 1-percent increase in the state personal income tax voted in last May?

I disagree with the income tax increase because the administration and Legislature should have never allowed it to get to that point.

Q-Our state and federal road system has reached maturity in the last few years and rapidly is deteriorating. What programs should be implemented to restore the roads?

More money should be allocated for the repair of the present highways and less for the construction of new highways.

Q-Utility rates have been adjusted automatically for fuel price changes. How do you feel about requiring state Public Service Commission approval of such rate changes?

I believe that the PSC should review all rate increases to make sure that the utilities are getting the best rate possible for our fuel.
