Share your talents at holiday time

Homemakers are atwitter these days ying to dream up decorating ideas for their homes and hospitality fare to righten the holidays.

Alice Slawson is called everybody's garden-idea specialist, and she sug-gests making a klichen wreath of ar-temisis and jychnis. With our late "spring weather" you may be able to pick these favorites if they aren't snowed under.

Alice makes her herb vinegar by us-ing "regular vinegar" and washes the iarragon or any other berb which makes a good laste, and then combines it with a bottle of vinegar.

For this project she picks a sunny day, placing the vinegar-herb mix in the aun for the day. Bottles of the herb vinegar would make a nice remem-brance for friends with a splash of col-ored ribbon-bow around the container.

Garlic-lemon-mint provides a good mix for an herb vinegar bottle. And don't overlook dill for a vinegar mix. Be sure and seal it well.

If you live near a field, collect wild grasses, such as millet, and the up small branches with their seeds Intact, with colorful yarn to use as a feed for the birds and a decoration for an evergreen where you can watch the birds. Pince cones can be stuffed with raisins, pea-nuis or sumflower seeds. Audubon peo-ple don't recommend peanut huiter as it sticks to the roof of a bird's mouth just as it does to ours.

uch" of liquor if the day is

to allow a block in the bay is particularly cold. When you get this issue of The Ec-centric you will still have time to di-vide a favorite houseplant to give to a friend. In our stores we are seeing very attractive pois or maybe your invento-ry will provide a favorite container.

Be sure to use good commercial pott-ing soil with the right balance of ingredients. You could even go further and write a note about the plant's care, including its favorite window light.

Including its favorite window light. Your columnist is delighted with the city and mechants lighting in down-town Birmingham. With our early hours of darkness you can include an automobile tour around town as your "first course" for dinner guests. To make the trip by walking gives you a chance to see the colorbul window. dis-plays. This if a superb show which in-cludes an exposure to new ideas and healthy exercise as well.
