

KEVIN BIONDO/staff photographer

Bob Stevenson helps load up some of the 720 cans of food donated by the United Steel Workers Local 12314, hungry in the Metro Detroit area. Standing next to Stevenson are Melvin Pomerantz and Phillip King.

KEVIN BIONDO/staff photographer

"We can Do" is the theme of this year's Operation Can-Do, a month-long drive ending Christmas day. All canned goods are acceptable. Elise Brothers Restaurants provide collection containers at more than 100 Big Boy Restaurants in

Wayne Oakland, Macomb and Washtenaw counties. Loading the truck are Bob Stevenson (from left), Harvey Brossett, Melvin Pomerantz, Phillip King, Mike Brown and John Betrus.

LIT graduates new students Professor promoted

The following students from the Farmington area have been named to the dean's honor roll for the fall term at Lawrence Institute of Technology. To be named to the honor roll a student must maintain at least a 3.5 grade point average and be a full-time student.

Dr. Ernst Benjamin of Oakland, Farmington, has been named as interim dean of Wayne State University's College of Lifelong Learning.

Benjamin, whose appointment runs through August, 1984, has been with Wayne State University since 1955. He holds faculty rank as an associate professor.

THE PLACE OF X-RAY IN DIAGNOSING ARTHRITIS

It comes as no surprise that x-ray provides an excellent way to see the bones, and to assess the status of joints. What is unexpected is that at times, despite your pain, the x-rays will show no evidence of damage. In such instances it is not correct for you to conclude that nothing is wrong with your joints.

First, joint damage can be present but it may be too small and scattered to be seen on x-ray. Second, you need to consider that besides bone and cartilage, the joint consists of ligaments which hold bone to bone, and tendons which anchor muscles in place. Inflamed ligaments and tendons can cause considerable pain, x-ray cannot visualize these inflamed tissues.

Rheumatologists are aware of the limits of x-rays. In the evaluation of your arthritis we consider your description of the problem, our examination of your joints, and the data provided by blood tests and x-rays. On the basis of all this information we make a diagnosis and plan your treatment.
