It's Tax Time
by Charles H. Williams, C.P.A.
CHOOSING AN ACCOUNTANT
Who'll prepare your tax return this year? It's time to start choosing a professional, and to undertake the planning that may help you shelter some of your income from taxes.
If your income is fairly straightforward and deductible expenses minimal, you might satisfactorily use a short-form return and do it yourself or with the help of a tax preparer. But with more income, and more deductions, as the return becomes more complicated, you're going to want a tax professional.
Why? Because it's worth the difference to put your tax return in the hands of someone with the knowledge to find every likely loophole, and the experience to know which are acceptable. And as you reach the higher brackets, you'll get the advice you need on sheltering some income from taxes.
Some free help is available from the IRS. Revenue employees will answer your questions (but the tax court has challenged some of their answers) and prepare the simplest returns. There are also independent and chain tax preparers who pop up at tax season. Their workers may not be experienced enough to catch all legal deductions.
A certified public accountant can handle most complex returns and are familiar with shelters and investing. His or her tax know-how can save you more than the fee.
How do you choose a professional? Recommendations from satisfied clientele are one way, as are referrals from lawyers. Once a relationship is entered, the client will find his accountant helpful in making financial decisions all year round.

INCOME TAX
We're a local organization. Even though we served more than 3,000 clients last year we haven't forgotten that every client is an individual and that each individual deserves the best service we can provide.
When we sign a tax return that we've prepared, we're proud of having done the best possible job for you. When you see our signature on your tax return you can be sure that:
1. The counselor who prepared your return was competent and thoroughly experienced in tax matters.
2. You have received the maximum legal deductions and the minimum legal tax.
3. Your tax return has been reviewed at the time and attention that was necessary to do a proper job.
4. Your tax return has been double-checked for both accuracy and tax saving possibilities.
5. Your return has been handled in a confidential manner.
Call us for a free tax organizer. Our fees are often less than the highly advertised tax firms and averaged less than \$50.00 last year.
Call us. We understand small businesses, personal and corporate tax returns. Computerized bookkeeping and payroll tax planning system.
