What if my new car is a smash hit on the way out of the showroom?

With Auto-Owners, it's covered. An Auto-Owners policy automatically covers your new car. And should you have an accident within 90 days and your car is a total loss, they'll pay the full cost of a new car. Not all companies offer coverage this complete. But at Auto-Owners they try to think of everything. Stop by and see us for full details.

Morality and politics discussed at LIT

How moral or Christian is Reaganomics? Is there room in a religion which preaches love, meekness and peace for the competitiveness of capitalism? These and other such questions will be explored by theologian, author and educator Michael Novak at a special seminar on "Christian Faith and Economic Systems," at Lawrence Institute of Technology Saturday, March 12.

The day-long seminar will explore Novak's theories on the need for Christian sects to wholeheartedly support the capitalist system, rather than socialism or other economic doctrines. It will

be held on the LIT campus, 21000 W. Ten Mile (near Northwest) in Southfield and is open to clergy, the business community and students. The cost is \$5 for clergy and students and \$10 for the general public.

Novak, author of "The Spirit of Democratic Capitalism," is a former anti-war activist and speech writer for Sargent Shriver, Edmund Muskie and George McGovern. He was appointed as the Chief of the U.S. Delegation to the U.N. Human Rights Commission Meeting in Geneva in 1982 and is currently a resident scholar in religion and public policy at the American En-

terprise Institute in Washington, D.C. For information on the seminar, call

the School of Management at LIT, 556-0200.

Alliance to perform

Following an engagement at the Lyceum International in Southfield, the Actors' Alliance Theatre Company performed Nancy Beckitt's "The Women Here Are No Different" at the Orchard Ridge Campus of Oakland Community College on Saturday, Feb. 26.

This special performance was videotaped at 8 p.m. in the new Orchard Ridge fine arts facility.

The taping represented the first full-scale usage of video equipment in the new facility.

Ten built-in cameras, operated by OCC communications arts technology instructor Wallace Smith, were used for the first time during this performance. An adjoining television studio played a major role in the composition of the film.
