

Spring sledding

Shlawassee Hill, mixed with Mother Nature's latest trick, meant a day off from school and the best opportunity of the year for kids to try their hand at sledding.

Service is debated

Continued from Page 1

him residents were complaining about the "high rates." Instead, Early said, "they chose a non-profit company (CEMS) which charges more."

According to the NAS and CEMS proposals, documented in the ad hoc committee's report, a patient suffering a heart attack, with emergency medical technicians (EMT) transporting him 10 miles, administering oxygen and charging other emergency care fees, would pay \$185 with CEMS and \$150 with NAS.

CEMS WOULD PROVIDE three Advanced Life Support Units (ALS) stationed in Novi, Farmington and Northville Township. Two basic units also would be stationed in Novi 7 a.m. to 7 p.m. seven days a week. The other would be at Botsford 7 p.m. to 7 a.m.

If all four communities approve the CEMS proposal, more details will be worked out for the proposed five-year

contract, said Ed Barter, CEMS president.

THE NAS proposal includes two ALS units stationed in Novi, Farmington and Northville Township. The committee report said that one of the communities would have a basic unit instead of an ALS unit.

"This might result in a longer response time in a run requiring an ALS unit," the report said.

Early, however, said that it takes his units approximately 4.3 minutes to respond to a Farmington call.

Committee members said they also felt CEMS had better qualified personnel providing emergency care. Of CEMS' 22 listed employees, 15 are licensed as advanced EMT's and seven as basic EMT's.

Of NAS' 25 listed employees, 12 are licensed as advanced EMT's and nine as basic EMT's, according to the committee report. The remaining four are awaiting licensing.

Elephants eat on the run

African elephants, such as those found in Tanzania's Serengeti Plain, spend 16 hours a day searching for food and eating it, according to National

Geographic World Magazine. They may consume as much as 300 pounds of leaves, bark and tall grasses a day.
