

**Riverboat
modern**

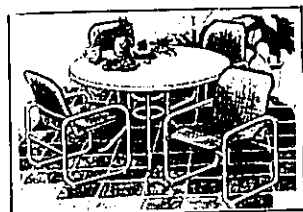

The interior of this house was remodeled to capture the look of the Old South. The walls were covered with Barnstable paneling by Masonite that gives the look of aged barn wood. The panels were applied horizontally to accent the random plank effect and rough-grained surface. The flooring is a Congoleum vinyl. A trunk, covered in "carpetbagger" print fabric, serves as a coffee table, doubling as storage space. An oval cotton braid rug, glazed pottery and a picture of the steamboat Natchez accent the Mississippi decor.
