

The aim of most kitchen remodeling is to gain work and storage space as well as to provide an attractive work area. With lots of countertop space for meal preparation and plenty of cabinets for storage, cooking becomes less of a chore. Today's cabinets can be built in an assortment of sizes and in spaces that previously were off limits.

the L plan with an extra wall for cabinets and appliances. The L-shaped kitchen with an island offers additional countertop space without cutting off any doorways.

REGARDLESS OF what course your remodeling plans take, one point is essential: Provide adequate storage. If new cabinets are in order, consider units that feature built-in organizers. Such features as lazy Susans, adjustable and pull-out

shelves, partitioned lid and cutlery drawers and vegetable bins will not only provide a place for everything, but make it easier to keep everything in place.

More information on kitchen remodeling and cabinet selections is in "Kitchen and Bath Planning." This 16-page illustrated, color booklet can be obtained for 50 cents from NCKA (National Kitchen Cabinet Association), P.O. Box 6830, Falls Church, Va. 22046.

We have a complete line of stained and beveled glass windows new and old. Custom made oak or walnut doors, entrance systems, French doors with beautiful beveled and leaded glass, and architectural items. We also do glass repairs.
