THE SCOTTS DIFFERENCE™

We wipe out weeds the others miss.

When you use Turf Builder Plus Two®, you're controlling weeds and feeding your lawn as no other weed-and-feed can. You see, to work, most weed controls have to be absorbed through the weeds' leaves. That's why Scotts® particles are small and lightweight. So they stick to the weeds' leaves better. So the weed control is absorbed better. So it works better. And only Scotts puts weed control in every particle, to get even the smallest weeds that other brands may miss.

And there's more. Turf Builder Plus Two feeds your lawn while it weeds, because it contains "Turf Builder" fertilizer—the fertilizer engineered just for lawns.

You can't get all that from "bargain" brands. Only from Scotts.

No wonder Scotts guarantees your satisfaction absolutely.
