We ought to have services cut and not pay any taxes. They don't provide any good services for the money they charge us right now and they don't know how to manage the money either so we believe we don't want to have any increase in taxes in the City of Farmington Hills. We would like to keep the government small.

No, I do not want my taxes raised nor do I want my personal services cut. However, if the Sisters of Mercy are so merciful let them give the senior citi-zens free recreation at their center.

How would the council like to be re-called? I would not like to have any of my services cut nor do I want any tax-es raised.

City services should be maintained. No increase in taxes. I would vote for recall of every council member who votes for it.

I would prefer that city services be

I think it stinks. It is typical of politi-cians. They have no idea of how to run a government. All they do is raise taxes and they don't think about the other people. Everybody else is taking cuts in wages or being laid off while they are still increasing government employees wages.

I oppose the raising of taxes in Farmington Hills. They can cut the ser-vices as we are assessed 100 percent of the services anyway.

## oral quarrel

No to property tax increase. Put the capital improvement to the Farming-ton Hills Police to a halt. Let them make do with what they already have and maybe the force is too large to be curtailed. Put a frezer on city hiring and re-evaluate all city positions.

I oppose the raising of taxes and would rather see the services cut.

By all means, don't raise taxes. Cut some services if you have to. Take the staffs down which have grown over the last 8, 9, 10 years since we became a city. We were once a township but if you need some advice on how to save money ask some former Chrysler employees who really had to tighten their belts.
