HOMEOWNERS CORNER

by Marvin Kemp, President
American Hardware & Supply Co.

It's now easier than ever to burglar-proof your home! There's a new type of home lock on the market, which you can install yourself. The lock offers double security. On the inside, when the lock mechanism is in the security position, the outside knob becomes inoperative and tamper-proof. But even when it is double-locked, a turn of the inside knob will open it instantly.

The knob on the outside is so designed that the grooving prevents any tampering and pliers cannot grab the lock's cylinder conveniently to attempt its being removed. There is no way, too, of sliding plastic between the door and door frame to "pick" it open. This type of lock offers peace of mind to shut-ins, the elderly or

those who must spend a good amount of time alone.

AMERICAN HARDWARE & SUPPLY CO., 31245 W. Eight Mile Rd., 476-6240, 537-2645 offers convenience in shopping.
