Forgram. The Dasdord Man, will be talking thermographs of city
buildings this full (VanScan), will be or
display in frost of the tent.

Want to start a personal energy savlags plan but not sure how to begin?
Try a three-hour home energy audit,
available for \$10 from utility companies. Small-business owners can achedule an occupy analysis by calling City
calling City aciling City
or calling City calling City
or calling City
or

nies. Small-business owners can ached-ule an energy analysis by calling City Hall at 474-5115. For excellent "how to" information, call the Energy Ad-ministration, roll-free bot line, 1-800-292-4704.

The Energy Committee is featuring a display on energy conservation at the

Farmington Hills library this month. Please take a look as you check out your books.

Energy information is also available at the energy information is also available at the energy window, located by the parks and recreation department in Farmington Hills city office.

The goal of the energy committee is to make the Farmington Hills energy management program succeed. If the program propers, it will be due to your efforts in seeking and implementing ways to save energy. You will make energy saving part of your illestyle, knowing that none of us can afford to waste it.

WHEN YOU CAN realize a 12 to 47 percent savings on summer cooling costs (depending on where you live) by setting your thermostat at 78 degrees instead of 72 degrees, your bank account wins. If everyone raised air conditioning temperatures 6 degrees, we'd save nearly 200,000 barrels of oil every day.

Her are other summer energy-saving strategies for you:

Conduct heat-producing activities, like drying clothes or taking showers, in the earlier and cooler parts of the day. Restrict oven use.

Use a "solar clothes dryer" when-ever possible. Sun-dried clothes smell great and cost nothing to dry.

Keep shades and drapes closed during the hottest parts of the day, when using the air-conditioner, always keep the shades and drapes shut.

Consider more walking and biking to accomplish your goals. You'll not only save energy, you'll feel and look better too.

 Wear lightweight and light-col-ored clothing. Natural fabrics like cotton and linen generally are cooler than synthetics, made from petroleum deri-

• Last, but never least, call the Farmington Hills Department of Spe-cial Services at 474-6115 to become a program volunteer. We still need you in the energy tent for Founders' Festival, Thursday through Saturday, July 28-30. Only a couple of hours of your time on any of these days would be appreciat-cd.

## Wayne names honor roll

. Undergraduate students in Wayne State University's College of Liberal Aris have been named to the dean's list for the winter semester. Those from Farmington Hills are: tasa Ellen Blau, Matthew Jerome Lesartis for the winter semester. Those from Farmington Hills are: tasa Ellen Blau, Matthew Jerome Lesartis for the winter semester. Allan Neuvirth, Mary Ann Civitano Oliveri, Pemela J. Eltema Phall, Interedict George McNeese and Stephanie Ann Seech.
