DECmate II.

The new small business computer for just **\$199.50*** per mo.

You could pay thousands more, and still not get a more complete small business computer than Digital Equipment Corporation's new DECmate II. It can do your accounting, "spreadsheet", financial modeling and personal word processing. It teaches you how to use it itself. And it has Digital's huge service organization behind it. DECmate is a deal at any price. But at this price, it just may be a steal. See it today.

"AS OF RIGHT NOW..."

Your family can afford a Commodore 64 Home Computer As little as **\$149.95***

The Commodore 64 beats Apple IIe and IBM PC hands down in most price/performance comparisons for personal computer use. (As little as \$149.95 as part of recommended start-up package with extensive training, warranties and reasonably priced peripherals). Commodore peripherals cost much less than the competition's. A Commodore printer and disk drive could save you more than \$800.00 over equivalent Texas Instruments accessories for the TI99/4A.
