On the Job. A farmer walked into the village general store. "I want," he said, "that tub of margarine and that bacon and all the other foodstuffs."

"Good gracious!" said the recently bereaved widow who kept the store. "What ever do you want with all them things, Mr. Giles?"

"I dunno," replied the farmer, "but I'm the executor of your husband's will, and Lawyer Stiles said I was to be sure to carry out all the provisions."

Mistaken Identity. A burglar got into my house at three o'clock this morning, when I was on my way home from the club," said Jones.

"Did he get anything?" asked Smith. "He certainly did! The poor beggar is in the hospital. My wife thought it was me."

**Aluminum Ware Saves Fuel**

Women who have aluminum tea kettles in their kitchens know that they bring water to the boiling point quickly and require only a small amount of heat to keep the water hot, thus saving fuel.

Aluminum cooking utensils are the most economical in the long run. They do not crack or chip; they save you the expense of constantly buying new utensils.

Aluminum utensils are silver-like in their shining beauty—a constant source of pride to the woman who owns them.

**YOUR SHOW-WINDOW**

The purpose of the show-window is to attract prospective buyers and make your business grow. A well-lighted window calls out to the passer-by to stop, look, and be favorably impressed.

A dry goods store where a test in which it was found by actual count, that the number of passers-by stopped by its show window increased nearly 100 per cent after better lighting was put in. The effect on sales was equally gratifying.

Are possible buyers walking indifferently past your store and stopping at the better lighted window of a competitor? This is a question you ought to find an answer for. Ask us to inspect your lighting. No charge made.
