The Chemist and the Cow

A chemist is the first man to enter every car of raw material that reaches the LARRO mill. Samples are taken and carefully tested—they must be up to LARRO quality standard or that car is rejected. Every ingredient gets this preliminary test—there is no guesswork—it must be "right" before it is considered good enough to go into LARRO.

And LARRO in its finished state is analyzed every fifteen minutes for protein, fat and fibre content. Everything must be exact. Cows don't go off feed on LARRO, because LARRO never goes off standard. Put your cows on this better ration and watch your milk profits grow.

GOLDETTE BLOOMERS

The Most Supremely Comfortable Bloomers You Have Seen

Bloomers that do not catch or bind, that never come down or cause the slightest discomfort—such are Goldette Patented Bloomers. Women who have tried them continue to wear them because they say they are never conscious of them. This is due to their perfect tailoring and fit in every size; to the patented curved leg, the diamond shaped, sanitary, reinforced gusset; the waist band of finest elastic that always lies perfectly flat and doesn't bind or hurt. The beautiful cuffs hug the leg in a velvet grip yet never slip up or down. The dainty shirred pocket holds compact and kerchief securely. Select your favorite color from our stock of Radiums, Jerseys, Satinettes.

Have You Appendicitis
And Don't Know It?

Much so-called stomach trouble is really chronic appendicitis. This can often be relieved by simple glycerine, buckthorn bark, etc., as mixed in Adlerika. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel, and removes all gasses and poisons. Brings out matter you never thought was in your system. Excellent for obstinate constipation. Stanley F. Smith, Druggist.

You wouldn't let
your wife carry
a fifty-pound suitcase

That fifty-pound scuttle of coal—how long is your wife going to carry it?

It isn't that you wish her to carry it, but it probably never occurred to you that you can save her the strain of this load.

You know yourself what it means to lug a heavy load, especially on a hot summer day.

Give her a Florence Oil Range. It will make her kitchen cooler. It will preserve her health and youth. She will have no coal to lug or ashes to handle. And you can soon pay for the cost of a Florence out of the difference in cost between kerosene and coal.

Bring your wife in and have us demonstrate and explain to both of you the good-looking, quick-cooking Florence.

HOW TO SAVE

Most homes use the electric sweeper. A prime reason is its economy. Here is an estimate of the money it saves in the course of a year:

312 hours of sweeping, dusting, beating rugs and other incidental work, at say, 30 cents an hour \$93.60
Avoids the frequent replacement of brooms, dust pans, dust cloths, brushes, etc., say, \$10.00
Prevents wear on rugs and carpets due to imbedded grit which cannot be removed by broom, say, \$5.00
Total saving in 12 months \$108.60
To say nothing of the saving of priceless health and strength. Come in and talk with us about this.
