

## THE HIGH SCHOOL TATTLE

(Continued from Page 1.)

## Miscellaneous—

Miss Shiffer is ill with the measles so Mrs. Conroy is taking charge of her work in the first grade.

"A Poor Married Man," a play will be presented by the seniors soon.

The lunch room is a great success. It is patronized by many of the school children and has proved to be a paying proposition.

The seniors are well pleased with the sale of their candy.

## Athletics

Farmington rose to first place in the league standing on Friday by defeating Redford while at the same time Northville who was tied with us last week slipped back a notch by losing to Plymouth in a close game, 17 to 15. Redford was expected to put up a harder fight than they did, but they were a little slow on the offense. It was a fast game, nevertheless, both sides striving to win, but Farmington dropped too many baskets for Redford's health and defeated them 29 to 17. Farmington played a good offensive game and won the game on short shots from underneath the basket, although Cousins, sticking to her motto (one sensational shot a game) dropped one in from the center of the floor. The next three league games will be played away from home. The game this week is at Northville. Everybody try to be there.

Lineup	P	6
Quinn	F	6
Bryan	F	2
Salow	C	4
Cousins	G	2
Wisom	G	0

Substitutions: Graham for Bryan; Veitch for Quinn.

The girls absorbed another beating from Redford; although it wasn't quite so bad as the former one, it wasn't a tight squeeze for Redford at all. The girls held their own for the first quarter but when they half came the score was 14 to 5, Redford. Millard shot four baskets in the second period, which helped lessen their defeat a little, but Redford shot five and took the game 26 to 13. The girls haven't any chance for the cup so all they can do now is to try and spoil somebody else's chance for the same.

Line-up: Millard, F.; Reynolds, F.; Spaller, J. C.; Putnam, R. C.; Chamberlain, G.; Nichols, G.

Substitutions: Adams for Spaller; Steele for Millard.

John Veitch.

Ten Commandments for School Pupils.

1. Thou shalt have thy mind on no foreign object while in school.

2. Thou shalt not make unto thee any graven image or any likeness of any teacher that is in the school.

3. Thou shalt not take the name of any teacher in vain for he will not hold thee guiltless.

4. Remember the holidays for they are few and far between.

5. Honor thy teachers and the laws that thy days may be short in school.

6. Thou shalt not steal thy neighbor's algebra paper or anything that is thy neighbor's.

7. Thou shalt not disgrace the name of thy school in any way.

8. Thou shalt not kill thy spare time but study with all thy might.

9. Thou shalt not bear false witness against thy neighbors or thy teachers.

10. Thou shalt not covet thy neighbor's intelligence.

Little Things Worth Knowing

Janet Hambleton has had her "roof" reshingled, while Margie Kreager's has been only shingled once.

Lacey Banks has a new black and green checkered school gown.

Munne-Ha-Ha's

"A Complete Debt"

Miss Knapp: "We borrowed our numerals from the Arabs, our calendar from the Romans, and our banking from the Italians. Can anyone think of any other examples?"

John Veitch: "Our lawn-mower from the Smiths, our snow-shovel from the Joneses and our baby carriage from the 'Bump'."

"In English Class"

Mrs. Westcott: "I have went! That's wrong, isn't it?"

Bob Shaw: "Yes Ma'am."

Mrs. Westcott: "Why is it wrong?"

Bob Shaw: "Because you ain't went yet."

"AN EARTHLY PARADISE"

[A Poem written by Dorothy Davis proved to be the best one of the sophomore English themes that were written recently.]

It was a cold and dreary day. The clouds were overcast and gray. And from the far North a cold wind blew.

That made one shiver through and through.

The sun no longer seemed to shine. The world no longer seemed divine. The trees looked bare and cold and drear.

The heart no longer brought me cheer.

The cold wind blew; it snowed, then, rained.

That wintry day when the world looked pained.

But in the night when I lay asleep A great transformation over the land did sweep.

The trees were covered with diamonds and pearls. The houses looked fit for lords or earls.

The earth looked as far as I could see, Like a beautiful blanket made for me.

It was plain to see that during the night,

Some band of fairies worked with all their might.

For the sun shone brighter than ever before.

And my eyes became dazzled with the great splendor.

The bushes hung with wealth untold.

The boughs of the trees glistened like gold.

My heart grew lighter with each thought.

Of the paradise the fairies to this earth had brought.

It was a scene that comes once in life.

A scene never forgotten in all the strife.

A scene you will remember till life is no more.

A paradise by fairies laid at your door.

Don't forget the Baptist Ladies' bazaar sale Saturday, fresh and delicious. Advt.

## The Rubber Question

The constantly increasing importance of India rubber in various industries makes the question of the cultivation of the rubber plant, as well as that of the production of synthetic rubber, one of general interest.

Careful investigations appear to show that the wild Para rubber is superior in quality to that produced from cultivated trees. A wise manufacturer, it is pointed out, would not dare to buy any quantity of cultivated rubber and store it for six months, for fear of grave deterioration in quality, but he would buy thousands of tons

of up-river fine Para, with a full knowledge that it would grow better in storage. As to synthetic rubber, it is asked how we can have that when we do not yet fully understand the chemical composition of the components of natural rubber.
