

Earn A Little--- ---Spend A Little Less

Whether your earnings are large or small, if you "spend a little less" than you earn, your future is sure, — make no doubt of it.

To watch some people squander all they make you would naturally think that all the good things of life were to disappear from the face of the earth tomorrow. They won't. They will all be here, and more of them too, years from now when you and I can enjoy them as much as we can today.

Earn a little, spend a little less, and the good things of life will accompany you through the future years.

ELECTRIC IRRIGATION HELPS WESTERN FARMS

Provides Artificial "Rainfall" Whenever Needed for "Basic Industry" of Agriculture.

Progress in agriculture, particularly as applied to the western farmer, is symbolized by one thing, prosaic enough in itself—the irrigation ditch. The farmer no longer blames the weather for crop failures, and "hopes especially the farmer with small holdings.

What electric power can mean is evident when it is realized that agriculture is a great "basic industry"; that hard times invariably follow crop failures; that irrigation is the solution of the western farmer's problem; and that electric power for irrigation pumps is making irrigation easier, more efficient, more reliable and less expensive.

It has been found, incidentally, that in most cases the farmer wants to install too large an irrigation system. The ideal plant is the one that operates continuously and has a storage reservoir so that a large, expensive pump is not needed.

When a small installation of this sort is at work, with a storage reservoir capable of holding all the water pumped over a period of twelve hours, the plant could be run all night, and in the morning the farmer would find a full reservoir, from which he could water his land as needed through the day; and at night the reservoir would be empty, thus completing the cycle.

Desert Land from Lack of Rain for better conditions next season. Nowadays, if the rainfall does not suit him, he produces his own rainfall by a twist of the wrist, or the push of a button; in exactly the quantity he desires, and at precisely the time it is needed. Furthermore, he puts it on the particular piece of ground which he wishes to cultivate.

The application of electric power to irrigation, through the use of the electric motor, has simplified and economized the process for the farmer.

Mrs. Perry Brindle of Detroit spent Tuesday and Wednesday caring for her daughter, Mrs. Ralph Lepley and grand daughter Virginia, who are ill but are improving.

CLARENCEVILLE SCHOOL NOTES

(Continued from Page 1.)

We have just finished the story of the "Lost Monkey" for morning reading.

The children dramatized the "Fire Spirit" and the Little Old Story last week.

Third Grade—
Those who were on the honor roll in spelling last week were: Adeline Randall, Clarence Schacht, Donald Sechrist, Laura Price, Daniel Duquet, Marie Duckett and Jack Jones!

We are most interested in the story, "The Cave Twins," in history.

We enjoy singing with the fourth grade on Monday morning. In hygiene class we are learning a poem about pure water.

We are practicing on the numbers in penmanship.

Some of the boys and girls went with the nurse last week to have some dental work attended to.

We have three new pupils in our room this month.

We are allowed to obtain books from the library on Friday and many of the boys and girls are enjoying them.

We are learning a poem about March in language class.

Fourth Grade—
Gladys Robertson and Clifford Horton are new pupils in this grade.

Verla Flick has returned to school after six weeks absence. We are learning a new, spring song.

This grade is dramatizing the nature story of the "Gray Family's Dream."

Fifth Grade—
The following pupils earned a half-holiday for being neither absent nor tardy during February: Ray and Jack Chapman, Lee Campbell, Marjorie Norris, Viola Wustzbacker.

The geography class is studying South America.

The B-class will begin the study of the different people of the world in reading.

The history class has completed their book and are now reviewing. Nature study will replace history next month.

Sixth and Seventh Grades—
We are making health booklets according to proper foods to eat. The sixth and seventh grades are enjoying their singing lessons given by Mr. LaBarge every Friday afternoon.

The special topics in geography were capably handled by the sixth grade last week.

Our grade appreciates and is making good use of the new ten volume encyclopedia recently placed in our reference library.

The Successful Camp Fire Girls will serve a chicken dinner at the Clarenceville school on Saturday evening, March 15th, from 6 to 8 p. m. Admission, adults 50c; children 35c. Everyone is invited. Come and enjoy the special dinner, also the program that will begin later in the evening. Watch the paper for next week's announcement.

P. T. A.—
The P. T. A. banquet held at the Clarenceville school house March 1st, was a decided success. The final accounting has not yet been made, and will be given later. The chairman and her committee wish to thank the high school orchestra and all who helped with the work and also those who kindly donated for the occasion.

The P. T. A. wish to give special thanks to the Farmington Creamery for their donation of cottage cheese, butter and milk.

High School—
Rehearsals are now in order for "Y. Olde Folke" Concert" to be presented by the Clarenceville schools Friday evening, March 28 under the management of the Student Council.

The tenth grade English class is now working on pageantry, the first assignment being the story of Robinson Crusoe.

The second year Latin class has taken up composition.

At the recent banquet and entertainment put on by the P. T. A. the high school orchestra was unexpectedly called upon to furnish the entertainment. They responded to the request and played eight numbers. The number with the vocal refrain entitled, "Before the Days of the Automobile (In Liza)" was a great hit with the audience and was only equalled by the excellent supper, furnished by the P. T. A.

The orchestra promises to put on several novelty "stunts" at the "Old Folks Concert" March 28th, but we are unable to find out just what they have in mind. The surest way to find out will be to attend, so get your reserved seats early for the concert is going big.

The sophomore class has selected "The Professor" as their class play and expect to present the play some time in May, under the direction of Mrs. LaBarge.

Who said base ball? Our suits go to the laundry this week and the boys have ready organized two teams. Maurice Wilcox has been elected captain of the first team and William Marchand captain of the second. In a few weeks you will hear from us again.

Week-End Specials

Sun Maid Raisins, seeded and seedless, pkg.	15c
Kellogg's Corn Flakes, per pkg.	7c

Buick Character Makes Buick Value

Buick value is something more than appears on the surface. It is more than the excellence and beauty of Buick design—more than the greater riding comfort, power and safety that Buick provides. Buick's value comes from the sum total of all those Buick qualities and traditions which together make up Buick character. A Buick owner fully appreciates Buick character. He knows the dependable, satisfying and trouble-free transportation which Buick gives, however long or however far a Buick owner may elect to drive his car.
