OUR SUNDAY SERVICE AT HOME

Conducted by the Ministers of Farmington for the Sick, Aged and Others Who are "Shut In" Rev. C. W. Townsend. OPENING HYMN—Sing, "Does Jesus Care?" Read: MATT. 6:35-34. "THE WORRY HABIT"

1. We make strenuous efforts, and rightly so, to prevent plagues and epidemics of contagious diseases; but what about that ever-present enemy of the soul, worry?

1. What are the Causes of Worry? 1. Sometimes it is a mental disease of derangement, due either to heredity or some unhappy accident. Brooding over ones physical malady, actual or supposed tends to produce worry and to augment the disease.

2. It may be an abominable habit, often developed in childhood. Shame on the individual who delights to tantalize, and peater the child, just to see him "boil" (Matt. 18:6.) Every emotion tends to sculpture the features, which in turn reveals character. How many faces are marred by the worry habit?

3. Again it may come from actual or impending calamity. Oh how many faces are crossing the bridge before the choicing of the ed stream is in sight. Foreswing is better than foreboding. But to see the strings of a life-time swept away in a moment tests brave hearts!

4. What are the Effects of Worry? 1. On ourselves, it prematurely brings the "crow feet" to our faces. (Prov. 23-7.) How unhappy is one of ten uneasy and dissatisfied!

2. Our friends are repelled rather than attracted when they see the effects of worry.

3. And worse than all the Cause of Christ will suffer by thus disobeying Christ's command. We cause the skeptic to mock, and the scornful to laugh at our profession of faith in the Lord. (Read 26, 28, 30.)

4. Read inspiring literature This will not exclude the gems of Wit and Humor. "I will do you a piece of good just to give vent to a good side-splitting, center-to-center conference laugh. Then read the autobiography of Helen Keller whose very life spells OPTIMISM. (Prov. 17:22.)

5. Finally, a complete surrender to the sway of the One who uttered the words of our text will transform the life and temperament. This commitment will help you to demonstrate "The Impact of Power" in a "New Affection." "Be not overcome of evil, but overcome evil with good."

CLOSING HYMN—Jesus comes with power to gladden. When love shines in. Every life that was can sadden. When love shines. Love will teach us how to pray. Love will drive the gloom away. Turn our darkness into day. When love shines in.

PRAYERS—Lord forgive us for the many times we have sinned against You. We just don't stop to think how much damage we are doing to the Kingdom You are building, by our fretting. Help us to have faith in You. Your Son has done for us, and in the most trying hour help us to smile and say, My Heavenly Father Knows!

the Sahara and the Libyan deserts have encroached on the fertile lands of North Africa and of the Sudan. The old "granary of Rome" in Tunisia is now largely an arid waste. It is not surprising that the Nile draws less water than it used to from its tributaries in the Sudan, and loses more than it used to by evaporation. Most geographers agree that the deserts are growing at present. Some believe that it is only an inevitable step in the drying up of the earth, and expect the process to go on forever, though perhaps with occasional remissions.

Other scholars say that there is evidence of an extraordinary amount of fluctuation in the climate of the world; that there have been much drier periods than ours, as well as much milder ones, and that the widening of the northern desert belt is only a phase in a long time movement of climate, from wet to dry and back again. But as these seasonal movements are extremely slow, often taking many thousands of years to complete their swing, the use of a new living will be here long enough to know which theory is the right one.—Cleveland Plain Dealer.

DO YOUR PART.

The taxpayers of Farmington township, having come forward with \$1200 more for use in defraying the expenses of the coming celebration of the one hundredth anniversary of the founding of this settlement, it behooves our citizens to put push and enthusiasm into the work of staging the event. There is now but two weeks for deciding upon a program, and making all necessary arrangements for its success. This work can not be done by one or two citizens, but will require the concerted efforts of many.

June 19, 20 and 21 should be made red letter days in the history of Farmington. Three big get-together days for renewing old acquaintances, making new ones, instruction, pleasure and recreation. The degree in which these will be realized will be in exact proportion to the amount of united effort that is put into the work of carrying out a carefully considered, well balanced program.

Do your part. A "let George do it" attitude won't make for success.

BALLING UP THE PUBLIC.

The seriousness of that hackneyed aphorism "there's many a truth spoken in jest," the comic pages of the papers and the mirth provoking articles by Ade Lauder, Hellman and others, attest.

Sam. Hellman in some real funny stuff anent the congressional investigations, makes "High Dome" Finnegan say:

"... and the results gonna be that the public'll forget all about the original mess and get wound up in the side lines. I'll bet that right now half the people of the country has got lost in the mystic-maze they is building around Teapot Dome down in Washington, and the other half has got so balled up in that they don't know whether Daugherty was being investigated for selling the right pictures to the Japanese, or whether your old pal, Mr. Roosevelt is being tried for slipping a secret cipher to Mrs. Smith so she could take to the White House that new house that McLean is buying in Cincinnati with money that he might have won on Zev, excepting for the fact that he didn't bet on him. The public ain't even got a good one track mind, and when you flashes two or three kind lights at 'em at the time you blind 'em. And that's what happened now. They can't see the original issue on account of the dust that's been raised. Sometimes I think these off-shoots is being pulled into that investigation just for the sake of getting lone voters all tangled up. The first thing you know they'll be electing Denby president and making Sinclair a present of all the oil he ain't got already."

BUILD CARS SAFER HUPP CHIEF URGES

Safety to those in the car, and long car life, should be prime considerations in the design and construction of every automobile. It is in my opinion more important than ever before—is to build his product so staunchly that it will perform perfectly in any reasonable emergency," declares Charles D. Hastings, president and general manager of the Hupp Motor Car Corporation.

"Considerable criticism has been directed against the entire industry recently because some manufacturers in an endeavor to get as much sales-appearance into their cars as possible, and still sell them within a certain price limit, have overlooked with a cardinal duty—that of building their cars to provide the utmost in safe transportation," he said.

Physical Exercise Hard Taking physical exercise is hard unless there is some fun in it. Sports were devised to provide the fun.

He Was Playing the Game

By MERRIS SCHULTZ

ROLLINS if had back in his chair in the restaurant and surveyed the girl before him. He couldn't quite make her out. She was not going exactly, according to Hoyle.

Because he never deceived himself, he looked with perfect appreciation at his reflection in the mirror behind her. He appraised himself, a middle-aged, middle-class, middle-class fellow, and he had made certain advances, and she was regarding him with an amused smile. He didn't like that smile.

"Hollis, how old are you?" she asked. "That's none of your business," he retorted. "I'm forty-six or seven," she commented graciously. "I'm quite sure you're a good deal younger, but you'll understand how old I'm not a simpleton. My Rollins, are you really enjoying your life? Do you really still enjoy the game, the zest, the pursuit of innocent, young girls, that there are many, but—Oh, do you enjoy it?"

He was shocked into stammer. "No," he answered. "But what else is there to do? A man wants a good time have you had, Mr. Rollins?" "Oh, doxias," he smiled. He was beginning to feel more at ease with this strange, young girl, and he realized that the had escaped him.

"You never married?" "He shook his head. "Always wise enough to keep out of that." "Tell me about these good times. Any special one stand out in your memory? Any real love affair among the glitter?"

Rollins began to reminisce. "I had one real love affair once," he said. "It was when I was ten years ago, when I'd made a fool of it. It was in the Springs of Broadway. You were spoken of as the coming man. I had a girl I couldn't live with. I hadn't the girl. This was in a little country town where I was playing. She was the minister's daughter."

"Go on," said the girl, playing with her fork. "It sounds interesting, and I'll tell you the usual way. I thought I was going to have some fun with her. I found a girl of unusual mentality, sincere, earnest—Oh, a good little thing."

"Yes. Did she fall for you?" "We told for each other heavily. It was a real love affair. I confessed

CHILD VICTIMS OF WAR STARVE

As has been aptly said, it is always the children who are ground in the mills of international disputes, Major General Henry T. Allen, chairman of the American Committee for Relief of German Children, told members of the House of Representatives in a report on conditions in Germany.

"Secretary Hoover has pointed out that Germany must at all times import a certain amount of food," said Gen. Allen. "Before the war she has never able to produce more than 65 per cent of her minimum requirements. Today she cannot produce 65 per cent.

"As the situation stands, food merchants are unable to obtain foreign credits and the government cannot, without the consent of the various powers establish commercial credits on its own behalf of a volume required to meet the situation.

"It is important to realize that the present distress is not the usual kind. It is the climax of years of development, and consequently presents a much larger and more serious problem.

"Immediately after the Armistice the American Quakers investigated and found an appalling situation. Approximately 4,000,000 children had not had proper food during the last year of the war. Late in 1921 conditions grew better and relief work was halted. The present collapse started last year, and the people particularly the children, quickly fell victims of undernourishment because of their weakened constitutions due to the previous famine period.

A Michigan Committee for Relief of German Children, headed by Dr. Angus McLean, and Captain Eddie Rickbacher, has been formed and is conducting a statewide campaign from headquarters, 1817 First National Bank Bldg., Detroit.

Contributions are being made to the headquarters of the Michigan Committee, 1817 First National Bank Bldg., Detroit.

The Quakers also attend to the shipping of the food to Germany and have a complete organization there for the handling and distribution. They also have been given full charge of the distribution of the relief work of the German government so that there will be no duplication.

It is further ordered, that the 18th day of August 1924 at eight o'clock in the forenoon, at said probate office, be and is hereby appointed for the examination and adjustment of all claims against said deceased.
