F. L. COOK & CO.

F. L. COOK "The Home Store" A. E. NACKER

ARE YOU GOING TO BUILD?

Or, are you planning home improvements? In either case, do not forget that most of the comfort and convenience of the modern home hinges on its electrical installation.

Therefore, you should see to it that your plans embrace a pretty complete wiring layout. Consult with us about this if you like. We shall be glad to assist you. And remember that a house well planned electrically finds a much readier market, and brings a better price, than one in which this important feature has been slighted.

COMMUNICATION

Farmington, April 9, 1924.

It is said that the devil can quote scripture. I would like to quote, if I may, from the Constitution of the State of Michigan, Article XVI, Sec. 3:—"Neither the legislator, or any municipal authority shall grant or authorize extra compensation to any public officer, agent, employee, after the service is rendered, or the contract entered into. Will that hold the liberal spenders of other peoples money? I have large sympathy for township officials, but let us be just before we are generous. Remember the fellows' hand that \$12,305.32 tax returned. (Signed) FRANK L. LEE

The lecture will restore confidence, give hope for the future and lead to a greater reverence for the Bible. It will be given at 8 o'clock Sunday, April 27th. The town hall has been engaged for the occasion.

The Dutch dance to be given at the Colonial Ball will be worth the price of admission.

AN EVENING OF MIRTH AND MERRIMENT

The Standard Bearers of the M. E. church have for some weeks been preparing a Japanese Carnival to be held at M. E. community hall next Thursday evening.

The auditorium and dining hall will have oriental settings which is imagination will transplant the patrons to the flowery kingdom.

Many novel features calculated to please and entertain are on the program.

Try A Liner—They Bring Results

ALL NATIONS MARCHING TO ARMAGEDDON

Thinking men in all the walks of life are watching passing events and some are anxiously contemplating the immediate future; many are convinced that a great crisis is impending, expressing their opinions in no uncertain terms. "These are days of great perplexity." "The next war will be more disastrous than the last." "Civilization trembles in the balance"—this is the import of their words.

Are we nearing the end of the world? might be asked of the Christian. His answer is, "That he does not know, but that he thinks the end will come sometime." The world has often passed through very troublesome times, but the conditions today are quite complex as compared with former times. There is an intertwining of earth's interests—political, financial, social and religious—unparalleled in history. What is the remedy? Some have suggested that the remedy is found in prophecy.

A careful examination of the prophecies discloses the fact that all great crisis have been foretold: Sodom was destroyed, and God's typical kingdom of Babel was overthrown, but not without warning; the handwriting was on the wall at the feast of Belshazzar; the Noachian flood was preached over one hundred years before it came; and the breaking up of the present order of things and the manner of the introduction of the new order are clearly portrayed in prophecy.

A lecture on "All Nations Marching to Armageddon," given by Mr. Charles Sobey under the auspices of the International Bible Students Association, will throw a flood of light on the meaning of the prophecies which have application in the present distressing times through which we are passing.

The lecture will restore confidence, give hope for the future and lead to a greater reverence for the Bible. It will be given at 8 o'clock Sunday, April 27th. The town hall has been engaged for the occasion.
