"Don Quixote"

Shakespeare himself has written nothing so full of the diverse stuff of experience; so quietly and steadily illuminated by gentle wisdom, so open-eyed in discerning the strength of the world; and Shakespeare himself is not more courageous in championing the rights of the gallant heart. How is it that at every point of our journey we come to like the Don better, until in the end we can hardly put a limit to our love and reverence for him? Is it possible that the criticism is double-edged, and that what we are celebrating with our laughter is the failure of the world?—Sir Walter Raleigh, in "Some Authors."

Had Stolen Dummy Bank Securities

By CHARLES E. BAXTER
(C. 1214, Western Newspaper Union.)

ALICE accompanied Joyce to the bank entrance. "I shall wait here for you, and I shall just pray," she said.

Joyce looked up at the great building. It was three years since he had last entered it. During those three years a great deal had happened.

He had been one of the tellers, on the small salary that the bank paid its employees. Day by day, handling money, as it is called, he had learned night by night racking his brains how he could further his prospects. Nothing but a bank clerk—forever! At forty, perhaps he could get married. At fifty he might have paid for a home. Struggle, unending struggle, with no prospects at all.

Temptation had come slowly. But at last its slow momentum had proved irresistible. Those securities—how easy to place another package in the safe on a Saturday afternoon and to walk out with the securities under his arm! Why, he could be half way to California before they discovered the loss!

That was what Joyce did. And that night, with the unopened securities at the bottom of his suitcase, he took his seat in the train. Opposite him was a girl. She was going to California, too. Her name was Alice Gray, and she was on her way to an aunt, her sole surviving relative after her mother's death.

On the train they became friendly. When he arrived he took a position in an office. There was no hurry about the securities. He might let several months elapse before disposing of them. He went to visit Alice.

It was six months later that he realized he loved her. Meanwhile he was doing well. He had been promoted. Suddenly he realized that he had no need of dishonesty. And how could he be dishonest with Alice trusting and believing in him?

Two years later they were married. The night before their marriage he told her all.

"I'll send them back, Alice," he said, "if you won't throw me over."

Alice told him in her grave, quiet way her conditions. She would marry him if—he would take back the securities in person and face the consequences. Then he would be a free man in spirit, even if he had to take the punishment.

"And I shall wait for you, whatever length of time you have to serve," she said.

It was a strange honeymoon East, and somehow a happy one. Now they had reached their destination. Now Joyce was entering the bank, and his last vision of Alice was standing outside, with her hands clasped together.

"I shall just pray—pray hard," she said.

Jones, the messenger, stared at Joyce. His mouth opened. He said nothing. Joyce passed through the gate. There was Miss Thompson, the manager's secretary, staring at him, too.

"Why, Mr. Joyce?" she whispered.

"We thought—"

"Mr. Lesson?"

"Yes. I—I'll tell him."

Now Joyce saw that the news of his return had run through the office. They were peering at him through the grill and round the desks. In a moment or two Miss Thompson came out. Joyce walked into Lesson's room.

"Why, Joyce?" Lesson rose from his chair, sat down. "We thought—"

"I know, Mr. Lesson, and I've come to make restitution." He placed the package on the manager's desk. He plunged into his story. "Somehow I couldn't bring myself to it," he said. He told him everything, about Alice, his marriage. "And I'm ready to take my medicine, you understand. I'm not trying to bargain," Joyce ended.

There was that ironical smile on Lesson's face that Joyce so well remembered. "The way of the transgressor is hard," quoted the manager. "Yes, Joyce, we're not sentimentalists here. You deserve a good stiff sentence."

"I'm ready for it."

Lesson's hand moved toward the telephone receiver, fell back. "But I'm not going to call the police department," he said. "Open those securities, will you?"

For the first time in three years Joyce unstuffed the package. He stared blindly at what he saw.

Inside was the dummy inclosure he had thought that he had placed in the safe instead of the securities—the folded newspapers, the empty envelopes!

But through the smiling face of Lesson he had a vision of Alice standing with clasped hands outside.

A Tough Problem

"You remember the games I bought the 'other day'?" began the annoyed customer. "You said they'd last me two years."

"Yes, madam," replied the saleswoman.

"Well, I lost them," said the customer. "What are you going to do about it?"
