May Harness Shannon

May Harness Shannon.
The Free State government of Ireland has entered into an agreement
with an engineering concern for a condprofensive survey of the hydro-electric
possibilities of the River Shannond. A,
detailed scheme is to be worked out
for harnessing the Shannon and for
the distribution of power over the
twenty-six counties of the Free State
If the findings are favorable, the government may develop the project as a
state enterprise.

Neur Food Product
Wheat, sugar and applies are the basis of a new food product to be bright out at Kentrelle, Nova Scotia. This new product will have a distinct apple flavor, and it is estimated that the Industry will provide a market for 300,000 barrels of apples annually. A name suggested for this product is "Apple Krisp." The apples, chiefly windfaths and No. 3s, will undergo evaporation before catering, the final stage of manufacture.

To Clean a Watch

To keep the works of a watch clean cut a piece of white paper, the size of the cover and, after soaking the paper, the size of the cover and, after soaking the paper, being the perfol paper should be perfolicially removed and a fresh piece, also soaked in perfol, substituted. The same plan may be adopted for sinall and medium attoo leafers.

MICHIGAN HIGHWAY PROGRAM IS READY

Michigan's highway program, which contemplates the construction of approximately 735 miles of new turnpike at a cost of about \$15,000,000, hai just been completed and submitted to the administrative hoard. Of the proposed mileage \$25 miles will be pavement and, out of this a total of 13st railes will be in completion of work started during 12s2. The remainder, will include gravel, grading and drainage. In all, the 102s plan is not only the largest undertaken by the state since the present system of highways was planned, but exceeds the largest previous year's construction by almost 100 per, cent.

When the construction program for the present year first assumed definite form the contemplated expenditure represented about \$23,000,000 but, as a result of range may may be a contemplated expenditure regressated about \$23,000,000 but, as a result of range may may be a contemplated expenditure regressated about \$23,000,000 but, as a result of range may make the present sent of work by the sent present of many months of work by the sent present of many months of work by the sent present of many months of work by the sent present of many months of work by the sent present of many months of work by the sent present of many months of work by the sent present of the present present

the present year first assumed definite from the contemplated expenditure represented about \$23,000,000 but, as a result of many months of, work by Governor Alexander Grocebeck and the state highway commissioner, this was pared to the amount now indicated. Of this the federal government will pay 30 per cent of the construction of the state and counter will bear the remainder of the expense. Oh all other roads the state and counties will bear the remainder of the expense. Oh all other roads the state and counties will supply the entire construction capital.

Practically all of the more important hand heavily traveled trunk-lines will come in for a share of the proposed work and at the completion of this season's activities it is believed that the min arteries both north and south and east and west will have been practically completed. One of the most important stretches of highway to be affected will be the Grand river road from Detroit analysissepon, when the control of the stretch between Detroit and Lansing. The stretch between Detroit and Lansing. The stretch between Detroit and Lansing. The stretch between the north and Lansing. The stretch between Lansing and Grand Rapids will propably remain as a gravel road due of the south of the construction. Some paring, amounting to \$325,000, will be done on the road between Lansing land. Jack'son, but this road will not be completed due to the insufficiency of this construction.

Brought Back to Memory
The wrestling match was a whiriwind and hotly contested affair.
Every fan caer the ropes was on his
feet wild with excitement and yelling with every conce of hung canacity—all but one frail fittle man, who
was sitting itotally oblivious to both
the boat and the bedlum in the attitude of a iman who is valuly triping
to recall seinething:
Finally, with a hepeless sigh, he
looked up and glanced casually at the
wrestlers. Then he spring up and
oblowed his was through the crowded.
