

TRAVEL MONEY

The most convenient funds to use whenever you travel are travelers' checks.

We issue these in \$10, \$20, \$50, and \$100 denominations, bound in a little book containing just the right assortment.

Furthermore, travelers' checks are safer than money because they are valueless until countersigned.

Then they are accepted by banks, stores, hotels, railways, and steamship lines at face value.

CONVENIENCE OUTLETS

When planning a new home or considering changes in your present residence, it will be well to remember that much of the comfort of a home depends on the facilities provided for switching on the current in the different places where you may desire to use it.

Convenience outlets (small sockets in wall or floor) should be provided in every room, especially should they be found in dining room, living room and kitchen, in order that you may conveniently utilize the different electrical appliances that make modern housework so easy and pleasant a task.

Convenience outlets add nothing to your electric bill when not in use—and very little when. Speak to your electrical contractor about this.

Well-Painted Buildings Are Easier to Rent and Sell

Attractiveness of interior and exterior painting is a big factor in closing every sale or rental deal. The well painted building seldom causes its owners a loss through vacancy. Well painted houses boost real estate values in any neighborhood.

So "painting for looks" pays the building owner in many ways. But the chief function of paint is to prevent wear. That is why it pays to use only paint of known quality, such as

Patton's Sun-Proof Paint

The best test for paints is—time. For more than a generation the Patton Paint products have been favorably known and widely tested. The best Sun-Proof asset is the army of paint buyers who will use nothing else.

You can depend on Sun-Proof as you can on no other paint. A job done with it is an investment yielding sure returns.

Let us talk it over with you.

Humming Birds Do Not Sting

The biologist survey says that humming birds do not sting. They use their tongues for extracting honey from flowers.

Keep Away Evil Spirits

The faces of babies in India and Persia are often washed in the liquid in which holly bark has been soaked, as a charm against evil spirits.
