Meaning of Han

The word han is used in the Near East to designate a stopping place for traveters. It scarcely takes on the dignity of a hotel, since the rooms are furnished with nothing more than a pallet to provide a resting place for the weary solourner.

The Ideal State

Education and good morals will be found to be almost the whole that goes found to be almost the whole that goes to make a good man, and the same things will make a good statesman and a good sing. The truest definition of a complete clitzen that can be given is probably this? That he shares in the indical and executive part of the government. A state, consisting of a multitude of human beings, ought to be hought to unity and community by education.

Care for Child's Teeth

We have been taught to believe that dentists have much to do with good teeth. The work of the dentist, however, only begins after the teeth are here, when they are all formed and in whatever couldion they are developed in the jaw, which is the result of the prenatal influence, whether good or bad, so far as the teeth are concerned. If has been said that a clean tooth perer decays, beginning to make this perfect that the second of the sixth year in a child's life divides the preventive and, reparative care necessary, and the limit should not be reached before this care is given. Care in the kindergarten age is better than when in the first grade at six years, and the nursery or preschool time is better than the kindergarten.—Dr. Harold Cross in the Nation's Health's Health.

Two Ways To Build a Car

The Hupmobile Quality-Proof exhibit shows you two ways of building a motor car.

You don't have to be an expert on fine motor car practice to understand Hupmobile Quality-Proof. Every part is labeled. Its material is given in plain English.

The lesser practice is also told. You can see it all for yourself. Here is the kind of proof you are justified in demanding from any car.

Hupmobile Quality-Proof shows you not only fine material. It shows you fine engineering design and fine manufacturing—as fine as can be done by trained mechanics and modern precision machinery.

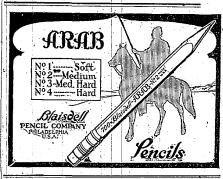

Hupmobile owners could tell you how much these things mean in satisfaction—in saving them money and time—in making their Hupin bile pay as no other car ever before paid them.

Come in soon—and learn how a motor car must be built to give you the satisfaction every motorist desires.
