1.2.3.4.5 Years -Still a Young Car

The Willys-Knight is a car you can keep and enjoy for years. A touring car with all the thrill of 42 horsepower-a car you can drive 50 miles and more an hour, hour after hour-without over-heating-without loss of power—without engine trouble - without carbon cleaning - without ever needing valve grinding.

The Willys-Knight sleeve-valve engine is the most powerful engine of its size ever built - and the quietest - and the only type of engine in the world that actually improves with use. It is common for Willys-Knight owners to report 50,000 % miles and more without spending a cent for repairs on the engine.

TO HAVE FIELD DAY

A market gardeners' field day,
the first of its kind ever held in
the state, has been called at the
Michigan Agricultural college for
August 20.
Material of interest to all vegetable growers in the state is being planned for the day's program. A general afternoon meeting, inspection of extensive expesimental plats in the gardens of
the college horticultural department, a basket picnic lunch at
noon, and other features are listed.

The experimental work to be
studied will include tests on exdra early varieties of tomatoes and
on newer strains of extra-early
sweet corn. In the college of the
