THE HEALTHY HABIT

DR. LOUIS PASTEUR, the microbe sleuth, took his first cue from wise old gardeners who found, long before the pathologists' lens revealed their existence, that one of the surest preventatives against germs is tobacco juice.

Chew and stay healthy. Protect teeth and digestion. Fortify your system against throat and nose trouble.

BEECH-NUT Chewing Tobacco is the perfect form in which tobacco should be used.

Just prime, full-ripe, waxy, whole leaves with all the stems removed, free from dust and fragments, cut just to the right size and untouched by human hands through every stage of preparation until the air-tight, dust-proof package is sealed.

A rich, mellow chew of undeviating quality and quantity—the most liberal friend 10c. ever had.

Over 250 million packages sold in a single year.
