JOHN A. ADAMS

John A. Adams, who has served Oakland County as Road Commissioner for the last eleven years, announces his candidacy for re-nomination at the primary to be held September 9th. Mr. Adams makes the following statement:

"The first money appropriated for county road work was the sum of one thousand dollars raised by the Board of Supervisors in 1912. Since that time the growth of Oakland County has been so rapid that it was necessary at times to expand the road program in order to keep pace with the demands of traffic and to insure the proper development of our beautiful lake regions and other natural resources realizing the fact that safe, rapid transportation is the most vital factor necessary to the growth and development of any community."

The result has been that a well-balanced system of roads has been built, connecting every part of Oakland County; a system which we are all proud of and which is regarded as one of the best in the United States.

During the next few years this County will experience an even greater growth than in the past. The inevitable effect of the completion of the work now in progress on Woodward Avenue, making this the greatest super-highway in America, together with the proposed relocation and rapid transit service on the Grand Trunk Railway, is bound to result in a greater development of this county than even the most enthusiastic promoters have anticipated.

The contemplated revamping of the State Trunk Line Act, which will undoubtedly receive the attention of the next Legislature, is another matter of great importance to Oakland County.

Because of our natural resources and our geographical location in close proximity to the great City of Detroit, this County should be given a considerable additional mileage of State Trunk Line Highways, and will receive great benefit from this source, provided the matter is properly handled.

The problems to be confronted are of such magnitude, and the proper functioning of the office of County Road Commissioner is of such vital importance to every taxpayer, that it would seem to be sound judgment to retain in office a man who has proven his ability in this capacity and who has at his command a thorough knowledge of all duties necessary to guarantee to the public a continuation of the satisfactory service which characterized the work of the Oakland County Road Commission in the past.

I wish to take this opportunity to express my gratitude for the hearty co-operation given me by the public and to thank my friends for their previous support. I hope that my record, as evidenced by our present system of road construction and maintenance, has been such as to merit their continued support and I would greatly appreciate your vote at the coming primary."

Buffalo Meat on Sale

Despite many assertions to the contrary, the American bison is far from becoming extinct. The Philip herd near Fort Pierre, S. D., has been rapidly increasing, so that recently 15 head were slaughtered and sent to St. Paul and Minneapolis to be placed in cold storage. There any one who has a taste for buffalo steak may buy it for himself. The owners of the herd have made several attempts to dispose of it as a whole, but have not been successful. Now, however, they are building up a fair business in supplying the market with this new delicacy. In addition, an annual buffalo hunt may be instituted.

Has Many Relatives

The son of Mr. and Mrs. Cedric Shepard of Northfield, Vt., is well supplied with living great-grandfathers and great-grandmothers and other relatives of like class, as follows: Four great-grandfathers, two grandfathers, four great-great-uncles, fifteen great-uncles, two great-grandmothers, two grandmothers, four great-great-aunts and seven great-aunts. All the great-great-grandparents are less than seventy years of age and none of the grandparents is more than forty-five.

Unfortunate Twin

One of twins, who was born before midnight on March 21, 1910, became entitled to leave school at Wellingborough, England, on April 1, the end of the last term. But his brother, born two hours later, cannot leave school until the end of next term, two months hence, according to the board of education regulations.

The Good Old Days?

A tablet on the South bridge, which crosses the River Frome at Wareham, England, states: "Any person wilfully injuring any part of this county bridge will be guilty of felony and upon conviction liable to be transported for life."

Sardinia's Insect Plague

Sardinia has a plague of grasshoppers. The "hoppers" are said to cover the entire country to such an extent that all outdoor work is impossible. At one place the insects filled a railroad cut and stopped a train.

Spare Leg for a Priest

At a church lecture in Boston recently a collection was taken in aid of a fund to provide a spare artificial leg for a priest who was about to proceed to Singapore.

The Chew to Choose

YEARS of experience have
shown you that BEECH-
NUT Chewing Tobacco never
stoops to conquer.

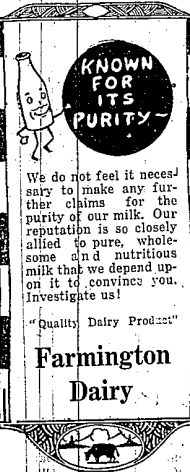

We don't use factory hash.

We don't buy up cigar and
pipe scrap. We don't pack dust and sweepings
and stems. We don't cheapen BEECH-NUT
Chewing Tobacco with indiscriminately pur-
chased crops or bulk it by mixing in bitter,
rancid, thick ground leaves.

BEECH-NUT is always a clean, pure, pro-
duct, especially cut to just the right size and
prepared through to sealing without one touch
of human hands.

That's why it's still the biggest selling brand
in the world. The truest friend 10c. ever had.
