

Do You Teach the Youngsters to Face the Facts?

School bells ringing for the new term call tomorrow's men and women — the leaders and workers of a few years hence.

Billions could not equal the wealth of this nation in its boys and girls. Added billions could not pay what school days will be worth to them.

Train them to meet each test as best they can, to cheer the comrade who passes them while each does the best he can.

Teach them, too, that thrift and a knowledge of how to save are big stepping-stones to success.
