

RED CROSS YEAR'S COST \$21,366,255

Nearly \$12,000,000 Devoted to Helping Victims of Great Japanese Earthquake.

OVER 3,000 BUSY CHAPTERS

Aid to Disabled War Veterans Paramount and Reaches Nearly \$4,000,000.

Washington—More than \$21,000,000 was the total of funds expended in all activities of the American Red Cross during the last fiscal year, ended June 30, says a statement issued by the National organization. This expenditure was almost one-sixth of the amount of money disbursed by the Red Cross in the war year, July, 1917, to June, 1918. Of this extraordinary sum \$11,631,393 was America's contribution to the Red Cross for relief of the Japanese earthquake victims. This was increased to \$11,793,803 by appropriations from general funds of the Red Cross, and it represented probably the largest spontaneous outpouring of beneficence of a single nation in the history of the world.

Over 3,000 active chapters expended during the year \$4,559,000. The National organization disbursed \$16,497,455.35, making the total \$21,366,255.35—all for humanitarian work which reached practically around the world. In announcing the year's record of American Red Cross industry the executive officials at Washington emphasize the fact that the extensive and never-failing work of the Red Cross depends almost wholly upon the nation-wide support of the organization from the memberships enrolled during the annual roll call which this year will be in progress from Nov. 11 to 27, when everyone is asked to join or renew their membership in the American Red Cross.

Soldier Service Paramount
Service in behalf of the disabled veterans of the World War and their families is a paramount obligation of the Red Cross. The organization, through its chapters, is constantly in touch with this duty in 2,609 communities throughout the United States—the chapters alone during the year expended in service for veterans about \$2,000,000. The National organization expended \$1,735,825—a total of \$3,735,825 applied to assisting war sufferers toward recovery from disability and distress.

This work is constant in hospitals, sanitariums, camps, soldiers' homes, in the community. For example, in helping disabled men and women in places where they were transient residents \$173,076 from national funds alone was required to help solve their problems. Every Red Cross service is ever at hand ready to meet the individual need of these men and women.

The enlisted men in the Regular Army, the Navy, and the Marine Corps, with their home ties, mean in never-ending Red Cross service which figures cannot tell, interpret, in this

work a total of \$455,285 was applied in meeting an obligation under the Red Cross charter which has been fulfilled for over 20 years.

Domestic Operations Extensive

In the past year Red Cross operations were almost wholly confined to continental United States and the familiar possessions. Relief work following disasters called for immediate activities in 122 places and a total of \$727,003.87 was spent in this service alone in 32 major disasters trained workers were kept at the work of rehabilitation for many months.

In carrying on the health activities a total of \$444,886.66 from Red Cross national funds, and \$608,000 from chapter treasuries—approximately \$1,052,886 in all—was applied, giving some idea of the extent of Red Cross service in the fields of public health nursing, nutrition instruction, and spreading knowledge of personal hygiene and care of the sick in the home.

For advancing the cause of human safety, the First Aid instruction, locally by chapters and over extensive national territory by the Red Cross instruction car covering trunk line railroads, and in teaching water safety and increasing the membership of the Red Cross Life-Saving Corps, the total cost was \$388,334.71, of which \$216,234.71 came out of national funds.

Army of Over 5,500,000

The Junior Red Cross in the schools—with over 5,500,000 in its "I Serve"

rank—was aided with \$233,510.78 to which it is estimated the chapters added some \$277,000—a total of \$510,510.78. In various other domestic activities the Red Cross spent \$283,473.19, and the chapters in their numerous voluntary services expended an additional \$104,000 during the year.

Foreign obligations, aside from Japan, were met with national funds as follows: Relief of refugees in Greece, \$200,887.18; Junior Red Cross projects, \$98,579.73; League of Red Cross Societies, \$165,000; other similar and foreign work, \$221,855.31. The American Red Cross budget for 1924-25 is \$4,647,790.85, or \$168,286.96 less than the budget for the year ended last June 30.

In good deeds for all peoples in time of distress the American Red Cross never rests. Help this work with your membership dollar—join on Armistice Day.
