15% of disease avoided through internal cleanliness

WHEN you are constipated, pol-sons are formed in the accumulated food waste, and reach all parts of the body. The first results, headaches, bilious-ness, a feeling of "heaviness", etc., serve as warnings of graver diseases to follow if this intestinal poisoning continues un-

checked.

This is why intestinal specialists state
that constipation is the primary cause of
three-quarters of all illness, including the
gravest diseases of life.

### Physicians Advise Lubrication for Internal Cleanliness

Medical science I as found at last in lubrication a means of overcoming constipa-tion. The gentle lubricant, Nujol, penetrates and softens the hard food waste, and thus hastens its passage through and out of the body. Thus, Nujol brings internal cleanliness.

Nujol is not a medicine or laxative and cannot gripe. Like pure water, it is harmless. Take Nujol regularly and adopt this habit of internal cleanliness. For sale by all druggists.
