Work Your Dollars on a "Night Shift"

Too

The dollars you put in the bank are hard-working double-duty dollars.

They work a "day shift" and a "night shift." Twenty-four hours a day they are busy piling up interest for you.

How large a "force" of dollars is working in the bank for you?

MODERN METHODS

There is quite a difference in running a two room apartment in New York and in running a farm. And yet, there is a similarity. The modern woman buys food that is especially prepared to serve easily. So does the farmer. We carry a line of specially prepared cattle feed that is the delight of the modern farmer.

IF YOU ASK THE GROCER which is the very best flour he will point to a sack of ours. So many experienced housekeepers will take no other hat he knows it must be superior to all others. His conclusion is correct and you'll be wise to accept it and order a sack. It costs no more than other flour so why not get the best?

(Continued from Page 1.)

It's better to have loved a short man than never to have loved a tall.

Irene: "Pretty good cider. Dad made a barrel."

John Reding: "Pity he didn't have another apple, he could have made another barrel."

Miss Porter (in science class): "Clayton, what happens when there is an eclipse of the sun?"

Clayton (after much thought): "A lot of people come out to see it."

Johnnie: "Mother, I just seen—Mother (reprovingly): "Johnnie! Where's your grammar?"

Johnnie: "I was just trying to tell you. She's down at the barber shop getting her hair bobbed."

CARD OF THANKS

Mr. and Mrs. Harry Wolfe wish to extend their sincere thanks and appreciation to their many relatives, friends and neighbors for their kindness, sympathy and beautiful floral offerings during their sad bereavement.

Special thanks to Rev. Eva and singers.

THE HINMAN SENSATION

The drop in Hinman prices for 1925 is the big sensation in dairy circles. The new prices are the lowest that Hinman milkers have ever been sold. Remember there are over 250 satisfied users of Hinmans in Livingston County.

Relics of Long Ago

According to a report from Chartres, England, sharks' teeth and fossils believed to belong to a period many thousands of years ago when the land lay deep under the ocean have been brought up from the 1,400-foot well at Virginia Water from which great quantities of warm water have begun to flow.

Dolls as "Doubles"

Dolls made to look exactly like the little girls who mother them are an innovation among this year's toys. Artists model the heads in clay, cover them with stickonette, paint them, and attach goat's silky hair.

MAKE YOUR KITCHEN WORK EASIER

Do you have to stand in your own light when washing dishes?
Do you have to pull things you are cooking out of the oven to see when they are done?
A well-lighted kitchen will save you an immense amount of time, labor, fatigue and annoyance—and the cost is small. Have a central lighting unit—a white glass, mushroom-shaped globe, and a 100 or 150 watt lamp. This should be close up to the ceiling.
Then have another lamp over the sink—one with a deep shade, open at the bottom, and made of white glass. Equip it with a 50-watt white lamp. This lamp should be from 6 to 12 inches from the wall and above 6 feet from the floor.
You are welcome to our advice and suggestions at all times. No charge made.
